7. MAJOR SUBDIVISION PRELIMINARY PLAT, CASE 2022-0907 (No public hearing required)

Application by Tony Toro of Lamco Custom Builders, LLC, for preliminary plat approval of the third phase of Brantley Place, a proposed major residential subdivision consisting of 19 single-family lots. This project originally began as Carthage Square subdivision, which was approved and platted in 2020 by Mark Lyczkowski. Since then, Lamco Customer Builders has purchased the lots and agreed to coordinate with Groce Companies' in developing this site as an additional phase of the Brantley Place subdivision, the preliminary plat for which was approved in 2021 and is currently under construction on adjoining property. This proposed subdivision will allow for nine additional lots, but also the extension of public sewer along Tyndall Drive, as well as the extension of public sidewalk and curb/gutter along one side of the street. The site was recently rezoned from Residential Mixed (R-12) to Residential Mixed (R-10) in July of this year. All lots proposed are intended to be served by public water, public sewer, and public streets, all to be maintained by the City of Sanford.

8. ZONING MAP AMENDMENT APPLICATION, PB ITEM 2022-0908

Consideration of a text amendment to the Unified Development Ordinance, Table 4.6-1 Permitted Use Matrix to revise the land use categories "Religious Complex (less than 350 seats), new site" and "Religious Complex (more than 350 seats), new site" to remove the prohibition preventing this land use from being located within the central business district (CBD) zoning classification.

1. UDO TEXT AMENDMENT, PB ITEM 2022-0801

Consideration of a text amendment to the Unified Development Ordinance, Consideration of text amendments to the jointly adopted UDO, with an update to Article 4: Sections 1-8 (Zoning District Regulations), Article 6 (Subdivisions), Article 9.2 (Storm Water Management), and Article 10.4 (Accessory Dwellings) and remove the language in Article 4: Sections 9 (Planned Unit Development), 10 (Traditional Neighborhood Development), and 15 (Residential Design Standards Overlay District).

DISCUSSION

Chair Britton gave introduction to the UDO Text Amendment application and opened the floor for discussion. Staff person Montgomery stated that one of the things that they are recommending is that the amendments will not take effect until January 1st, 2023 for several reasons, the first being they didn't know if there were going to be any changes to the text amendment. The second reason is that it gives us opportunity to really get into the map changes when we are up-zoning property. The laws for public hearing notices are substantial, so it gives us time, and we are looking at November for that part of it. Lastly, we want to give the development community enough time to transition from the current rules. He stated that there will be a period of time where they can either go by the former rules or choose to go by the new rules.

Board member Foster stated concerns about stormwater, to which Staff person Montgomery said, we are following state rules on stormwater.

Chair Britton asked, what the reason was behind the 7' street yard? Staff person Montgomery said, at first it was 8', developer feedback led to the lowering of the street yard requirement to 6'; however, Engineering said they wanted a planting strip behind the sidewalk for utilities which made the right-of-way an odd number of 53' [with the 6' street yard] so we went to 55' and brought the planting strip back to 7'.

Board member Murphy asked, the utilities will be between the sidewalk and the house? Staff person Montgomery said, that is correct.

Board member Foster asked, will there still be a utility easement required outside of the right-of-way? Staff person Montgomery said, you would have an easement.

Referencing proposed amendments to Accessory Dwelling Unit regulations, Board member Murphy asked, what defines a dwelling? Staff person Montgomery said, it may be on septic or sewer. Staff person Mierisch said, it would have to meet building code. Staff person Montgomery

said, it would be reviewed like a normal house and go through building inspections.

Chair Britton asked, if pre-fab homes were allowed. Staff person Montgomery stated that you could have a modular home. Staff person Mierisch stated that the UDO allows different types of manufactured homes in other zoning districts and that modulars are already allowed in the city as well as any other zoning district.

Board member Foster asked, would it be better to go with a 300 sq ft minimum size with regards to ADU's where septic is concerned? Staff person Montgomery said Building Inspections recommends 400 sq ft.

Board member Foster initiated discussion concerning the possibility of tiny home communities within Sanford. Staff person Mierisch briefly discussed the possibility of such a proposal by highlighting other developments in Greensboro. Board member Bycura also provided examples of other tiny home villages in North Carolina.

Board member Foster asked, as it pertains to amenities, if we drop it down to 30 lots and depending on what that amenity looks like, if it is a \$60,000 cost to construct it is \$2,000 extra per lot. Staff person Montgomery pointed out that the UDO already covers the 30 lots and triggers the second point of ingress / egress which is the reason we picked that number.

Board member Foster shared his concern on cul-de-sac length to which Staff person Mierisch stated the UDO covers this under Article 6.

Chair Britton asked, are we requiring certain materials on ADU's to match the principal structure? Staff person Montgomery stated that this is not conditional, we just didn't want extremes. We are asking that the ADU compliments the existing principal dwelling. Attorney to the Board Kevin Hornik stated that this is an instance where you are saying that there is an existing structure on the lot and you want to add a new accessory dwelling unit and we want there to be some consistency in material between the two.

DECISION

With no further discussion, Chair Britton opened the floor for a motion for the first vote regarding consistency with the long-range plan. Board member Perez made the motion that the updated UDO amendments are in accordance with the Plan San-Lee. Board member Foster seconded the motion and it was approved unanimously.

Chair Britton called for a motion of recommendation to City Council. Board member Foster made the motion to recommend that the Planning Board support Staff recommendations as presented. Board member Bycura seconded and the motion was approved unanimously.

Conflict of Interest Policy Related to Land Use Decisions

Pursuant to North Carolina General Statutes 160D-1-9, the following conflict of interest policies will apply to all land use decisions coming before staff, appointed boards or the governing boards as follows:

For Governing Board Members – Sanford City Council

A Sanford City Council member shall not vote on any legislative decision regarding a development regulation adopted pursuant to Chapter 160D, where the matter being considered is reasonably likely to have a direct, substantial, and readily identifiable financial impact on the member. A Council member shall also not vote on any zoning amendment if the landowner of the property subject to a rezoning petition or the applicant for a text amendment is a person with whom the member has a close familial, business or other associational relationship.

For Appointed Board Members – City of Sanford Planning Board & Board of Adjustment

Members of the appointed boards shall not vote on any advisory or legislative decision regarding a development regulation where the outcome of the matter being considered is reasonably likely to have a direct, substantial and readily identifiable financial impact on the member. Further, an appointed board member shall not vote on any zoning amendment of the landowner of the property subject to a rezoning petition or the applicant for a text amendment is a person with whom the member has a close familial, business, or other associational relationship. A close familial relationship means a spouse, parent, child, brother, sister, grandparent, or grandchild. The term includes the step, half, and in-law relationships.

For members of any board exercising quasi-judicial functions, the member shall not participate in or vote on any quasi-judicial matter in a manner that would violate affected persons' constitutional rights to an impartial decision maker. Impermissible violations of due process include, but are not limited to, a member having a fixed opinion prior to hearing the matter that is not susceptible to change, undisclosed ex-parte communications, a close familial, business, or other associational relationship with an affected person, or a financial interest in the outcome of the matter.

For Administrative Staff – Sanford/Lee County Community Development Department Staff

No staff member shall make a final decision on an administrative decision if the outcome of that decision would have a direct, substantial, and readily identifiable financial impact on the staff member or if the applicant or other person subject to that decision is a person with whom the staff member has a close familial, business, or other associational relationship. A close familial relationship means a spouse, parent, child, brother, sister, grandparent, or grandchild. The term includes the step, half, and in-law relationships. If a staff member has a conflict of interest, the decision shall be assigned to the supervisor of the staff person or such other staff person as may be designated by the development regulation or other ordinance.

No staff member shall be financially interested or employed by a business that is financially interested in a development subject to regulation under the UDO unless the staff member is the owner of the land or building involved. No staff member or other individual or an employee of a company contracting with a local government to provide staff support shall engage in any work that is inconsistent with his or her duties or with the interest of the local government, as determined by the local government.

ZONING DISTRICT INFORMATION

Existing Zoning: The area proposed for rezoning currently has two separate zoning classifications: Residential Restricted (RR) and Residential Single-Family (R-14).

The Residential Restricted (RR) district is established to provide areas for low-density single-family uses, with a maximum of one and one-half (1.5) dwelling units per acre. Property zoned RR should include only those tracts which abut or are in close proximity to existing large lot single family development, making RR an appropriate transition district between rural, agricultural, and suburban uses.

Minimum lot size:	30,000sf or 0.69 of an acre
Minimum lot width:	100ft
Minimum lot depth:	150ft
Minimum building setback, front:	30ft, measured from the r/o/w of the public street
Minimum building setback, rear:	30ft, measured from the rear property line
Minimum building setback, side(s):	15ft, measured from the side property lines
Maximum building height:	40ft
Maximum impervious surface:	N/A, not taking into consideration watershed regulations

Examples of uses permitted by right within the RR zoning district include residential single-family detached dwellings (site built and modular houses, both of which are constructed in compliance with the North Carolina Residential Building Code), parks/playgrounds/athletic fields operated on a noncommercial basis, church/religious complex (new site with less than 350 seats), church/religious complex (any size, if an addition to an existing complex), and schools (addition to existing site). There is a list of all permitted uses for this zoning district, including the uses subject to supplemental development standards and/or requiring the issuance of a Special Use Permit, within the agenda packet for your reference.

The R-14 district is established to provide areas for medium density, single-family residential uses, with a maximum of three (3) dwelling units per acre, where adequate public facilities and services exist with capacity to serve development. R-14 provides minimum lot size and density requirements in order to allow for market and design flexibility while preserving the neighborhood character.

Minimum lot size:	14,000sf or 0.32 of an acre
Minimum lot width:	75ft
Minimum lot depth:	100ft
Minimum building setback, front:	30ft, measured from the r/o/w of the public street
Minimum building setback, rear:	20ft, measured from the rear property line
Minimum building setback, side(s):	12ft, measured from the side property lines
Maximum building height:	40ft
Maximum impervious surface:	N/A, not taking into consideration watershed regulations

Examples of uses permitted by right within the R-14 zoning district include residential single-family detached dwellings (site built and modular houses, both of which are constructed in

compliance with the North Carolina Residential Building Code), parks/playgrounds/athletic fields operated on a noncommercial basis, church/religious complex (new site with less than 350 seats), church/religious complex (any size, if an addition to an existing complex), and schools (addition to existing site). There is a list of all permitted uses for this zoning district, including the uses subject to supplemental development standards and/or requiring the issuance of a Special Use Permit, within the agenda packet for your reference.

Proposed Zoning: The Residential Mixed District (R-10) is established to provide areas for a mix of residential styles with a maximum of up to four (4) dwelling units per acre, where adequate public facilities and services exist with capacity to serve development. This district provides a minimum lot size and density requirements in order to allow for market and design flexibility while preserving the neighborhood character.

Minimum lot size:	10,000sf
Minimum lot width:	70ft
Minimum lot depth:	100ft
Minimum building setback, front:	25ft, measured from the r/o/w of the public street
Minimum building setback, rear:	20ft, measured from the rear property line
Minimum building setback, side(s):	10ft, measured from the side property lines
Maximum building height:	40
Maximum impervious surface:	N/A, not taking into consideration watershed regulations

Examples of uses permitted by right within the R-10 zoning district include district include residential single-family detached dwellings (site built and modular houses, both of which are constructed in compliance with the North Carolina Residential Building Code), duplex (two-family) dwellings, parks/playgrounds/athletic fields operated on a noncommercial basis, church/religious complex (new site with less than 350 seats), church/religious complex (any size, if an addition to an existing complex), and schools (nursery and preschool, grade schools, elementary, middle, and high school; addition to existing site). There is a list of all permitted uses for this zoning district, including the uses subject to supplemental development standards and/or requiring the issuance of a Special Use Permit, within the agenda packet for your reference.

Adjacent Zoning:

North:	Residential Restricted (RR)
South:	Residential Restricted (RR)
East:	Residential Single-Family (R-14)
West:	Residential Restricted (RR)

Adjacent Land Use:

North:	Single-family dwellings and vacant/wooded land
South:	Single-family dwellings and vacant/wooded land
East:	Single-family dwellings (Brownstone & Hearthfield Lakes subdivisions)
West:	Single-family dwellings and vacant/wooded land; Winding Creek Farm subdivision, Opposite Carbondon Road

PLAN SANLEE

The long-range use plan identifies the majority of the site as Countryside, which accommodates agricultural and undeveloped lands outside the Urban Service Areas, encourages the preservation of the county's agricultural heritage, conserves and maintains rural lifestyles, and limits residential density. The local example is the Avent's Ferry Road Corridor in northeast Lee County. The area of the site included in this land use designation is approximately 191.9 acres, or approximately 97.5% of the site. The other 2.5% (the parcel with ParID 9623-82-4721-00) is identified as Suburban Neighborhood which accommodates residential areas on the outskirts of core urbanized areas, facilitates the development of large-scale neighborhoods, including mixed-use components in appropriate areas, and walkable neighborhoods with a high degree of transportation connectivity between those neighborhoods and surrounding network thoroughfares. Information from the land use plan is provided as attachments to this report for your reference.

LOCAL OVERLAY DISTRICTS

Upon review of the local overlay districts, the following are applicable for this site:

UDO, Article 4 Zoning District Regulations, Section 4.14 Watershed Conservation Overlay District: The subject property is within the Watershed Conservation Overlay District, specifically the Deep River Watershed Protected Area. A watershed is a basin-like landform delineated by ridgelines that descend into lower elevations that carries rain water from the land into soils, ground waters, creeks, and streams, eventually making its way to larger rivers and the ocean. Development within this area is allowed, but there are maximum density and built upon area requirements designed to ensure the health of the watershed. Development in this area must comply with the UDO watershed regulations.

UDO, Article 13 Flood Hazard Regulations Overlay: The subject property has 100-year floodplain associated with Patterson Creek along the northeastern property line and all future development within this area must comply with the UDO floodplain regulations. Floodplain means any land area susceptible to being inundated by water from any source. Development within this area is allowed, but there are floodplain management regulations (zoning ordinances, subdivision regulations, building codes, health regulations, special purpose ordinances, and other applications of police power which control development in flood-prone areas) that are applicable for development within this area. These federal, state or local regulations, in any combination thereof, provide standards for preventing and reducing flood loss and damage.

General Note: Sanford, Lee County, and Broadway do not have a local grading permit or stormwater ordinance and rely on the NC Department of Environmental Quality to regulate land disturbing activities. For questions or concerns regarding land disturbing activities, contact the NC Division of Energy, Mineral, and Land Resources Sediment Program via mail 1612 Mail Service Center, Raleigh, NC 27699-1612, via phone at 877-623-6748 or visit the NCDEQ website at <http://deq.nc.gov>. The physical address of the office is 217 W. Jones Street, Raleigh, NC 27603

UTILITIES

The site appears to have access to public water via a main line along Carbonton Rd and access to public sewer at the rear of the site via a main line extension from the existing Hearthfield Lakes and Brownstone subdivisions. This information is per our GIS mapping system and, if the rezoning is approved, all new development and/or water and sewer connections must be approved by the City of Sanford Public Works Dept./Engineering Dept. to verify compliance with all policies and regulations, including—but not limited to—off site improvements or upgrades.

TRANSPORTATION

There is frontage on Carbonton Rd (NC-42), which is a NCDOT maintained public road with a 60ft right-of-way, that has a 2020 NCDOT AADT of 2,500 vehicles per day in the general area of the subject property. The 2011 Lee County Transportation Plan designated NC-42 as a thoroughfare within its plan with a further recommendation that it become a boulevard with a recommended connection to Pendergrass Rd (SR 1334). This information is per our GIS mapping system and NCDOT must approve any proposed driveways via the site plan review/approval process to verify compliance with all applicable regulations, including—but not limited to—traffic studies and roadway improvements/turn lanes.

DEVELOPMENT STANDARDS

If rezoned, all of the uses permitted in the R-10 zoning district would be allowed and any future redevelopment of the subject property will be required to meet the current development standards of the UDO.

STAFF RECOMMENDATION

The rezoning request does not comply with the *Plan SanLee* long-range plan as the designation of Countryside, which is the designation for the majority of the site. Countryside does not include R-10 as a preferred zoning district and the intensity of R-10 uses are significantly higher than those desired in the Countryside future land-use area. Furthermore, this rezoning does not adhere to current development patterns in the surrounding area due to the desired density of the development compared to the residential single-family dwellings surrounding the site—the surrounding subdivisions (Hearthfield Lakes, Brownstone) are zoned R-14 (14,000sf minimum lot size) and Winding Creek Farm is zoned RR (30,000sf minimum lot size). Therefore, staff is NOT supportive of the proposed rezoning. The boards will need to take into consideration adjoining zoning districts and land-use intensity compared to the proposed project and the potential uses it would allow if granted, and they should also acknowledge that permitting this rezoning would constitute an amendment to the *Plan SanLee* future land-use map.

Additional information presented at the public hearing should also be considered in the recommendation and the final decision regarding the requested zoning map amendment.

PLANNING BOARD RECOMMENDATION

Per state law, when conducting a review of a proposed zoning text or map amendment, the planning board shall advise and comment on whether the proposed action is consistent with any comprehensive plan that has been adopted and any other officially adopted plan that is applicable.

The planning board shall provide a written recommendation to the governing board that addresses plan consistency and other matters as deemed appropriate by the planning board, but a comment by the planning board that a proposed amendment is inconsistent with the comprehensive plan shall not preclude consideration or approval of the proposed amendment by the governing board. If no written report is received from the planning board within 30 days of referral of the amendment to that board, the governing board may act on the amendment without the planning board report. The governing board is not bound by the recommendations, if any, of the planning board. Also, please be aware that the Planning Board may acknowledge that the zoning map amendment is not consistent with the *Plan SanLee* long range plan and still vote to approve the request; however, an explanation should be included within the motion.

Sample Motions

The Planning Board shall provide a written recommendation to the City Council that addresses plan consistency and other matters as deemed appropriate by the Planning Board. These sample motions are provided by staff based on information in the *Plan SanLee* land use plan. The Planning Board members are free to create a unique motion based on different articulated findings, information that was provided during the public hearing, or other matters deemed important by the Board.

VOTE #1: APPROVE A STATEMENT ON CONSISTENCY WITH THE PLAN SANLEE AS IT RELATES TO THIS REZONING REQUEST:

Motion Option 1: *“I make a motion that the proposed zoning map amendment **IS** consistent with the Plan SanLee long range plan designation of Countryside (which encompasses the majority of the site) and Suburban Neighborhood because the parcel, with ParID 9623-82-4721-00, is within the Suburban Neighborhood land use area which has similar residential intensity as the residential mixed (R-10) zoning district allows.”*

Motion Option 2: *“I make a motion that the proposed zoning map amendment **IS NOT** consistent with the Plan SanLee long range plan designation of Countryside and Suburban Neighborhood because the property is located primarily (approximately 97.5%) within the Countryside land use area which does not accommodate the land uses and intensity of the residential mixed (R-10) zoning district.”*

Motion Option 3 - Unique motion: The Planning Board members are free to create a unique motion based on different articulated findings, information that was provided during the public hearing, or other matters deemed important by the Board.

VOTE #2: TO APPROVE OR DENY THE REZONING REQUEST:

Motion Option 1: *“I make a motion that Planning Board recommend the City Council **APPROVE** the proposed zoning map amendment because the site is appropriate for a Residential Mixed (R-10) land use.”*

Motion Option 2: *“I make a motion that the Planning Board recommend the city Council **DENY**”*

the rezoning request because the site is not appropriate for a residential mixed (R-10) land use.”

Motion Option 3 - Unique motion: The Planning Board members are free to create a unique motion based on different articulated findings, information that was provided during the public hearing, or other matters deemed important by the Board.

COUNTRYSIDE

- ✓ Agricultural and undeveloped lands outside the Urban Service Areas
- ✓ Preservation of county's agricultural heritage encouraged
- ✓ Conservation and maintenance of rural lifestyle supported
- ✓ Limited residential density

Local Example - Avents Ferry Road Corridor in northeast Lee County

SUBURBAN NEIGHBORHOOD

- ✓ Residential areas on the outskirts of a core urbanized area
- ✓ Facilitates the development of large scale neighborhoods, including mixed use components in appropriate areas
- ✓ Walkable, with high degree of transportation connectivity between neighborhoods and surrounding network thoroughfares
- ✓ **Local Example - Westlake Valley Neighborhood in Sanford**

CITY OF SANFORD
CITY COUNCIL AND PLANNING BOARD
PUBLIC HEARING INFORMATION
October 11, 2022

This item was tabled by the City Council at the July 19th meeting during the public hearing to allow the applicant additional time to revise the design to address the concerns expressed by the City Council and the staff recommendation comments.

REQUEST

Micah Jones of Criteria Development is requesting to rezone two adjoining tracts of land totaling 48.94 +/- acres addressed as 1039/1040/1041 Carthage Street with frontage on Wicker Street from Residential Mixed (R-12) to the Reeves Property Conditional Zoning District to allow the development of a 233-lot residential community (71 single-family homes and 162 townhome units) as illustrated on the Reeves Farm Concept Plan submitted as part of the application. This is a site plan/subdivision plan specific conditional rezoning request; therefore, the conceptual development plans and proposed conditions are required as part of the rezoning request. It should be noted that staff is now working with Brian Richards of Urban Design Partners and George Young of Mattamy Homes regarding the revised site design.

Public notification consisted of publishing a legal notice in the local newspaper, notification by mail to adjacent property owners, and public hearing signs placed on the property as per the requirements of the North Carolina General Statutes.

GENERAL INFORMATION

Applicant:	Micah Jones of Criteria Development
Property Owners:	Reeves Farm Landco, LLC
Request:	Rezone from Residential-Mixed (R-12) to Reeves Property Conditional Zoning District
Location:	1039, 1040, and 1041 Carthage Street, Sanford, NC 27330 The site is addressed off of Carthage Street, but has public road frontage and another driveway off of Wicker Street.
Acreage:	48.94
Tax Parcels:	9642-26-3017-00 and 9642-25-6727-00
Tax Map:	9642.01 and 9642.03
Township:	West Sanford
Council Ward:	Ward 4
Fire District:	Central Fire Station
Schools:	J.R. Ingram Elementary West Lee Middle School Lee Senior High School

SITE DESCRIPTION

The site has frontage on Wicker Street and is located opposite the Kiwanis Family Park. It is on the south side of Wicker Street, between the Parkview Retirement Center at 1801 Wicker Street and the Elks Lodge at 910 Carthage Street.

ZONING DISTRICT INFORMATION

Existing Zoning: The Residential Mixed (R-12) district is established to provide areas for a mix of residential dwelling types with a maximum of three and one-half (3.5) dwelling units per acre, in areas where large-lot development is discouraged and adequate public facilities and services are available. This district provides minimum lot size and density requirements in order to allow for market and design flexibility while preserving the neighborhood character.

Minimum lot size:	12,000sf or 0.28 of an acre
Minimum lot width:	75ft
Minimum lot depth:	100ft
Minimum building setback, front:	30ft, measured from the right-of-way of the public street
Minimum building setback, rear:	20ft, measured from the rear property line
Minimum building setback, side(s):	12ft, measures from the side property lines
Maximum building height:	40ft
Maximum impervious surface:	N/A for residential development that is not within a watershed

Examples of uses permitted by right within the R-12 zoning district include single-family homes, duplexes, and churches (less than 350 seats). Uses permitted subject to supplemental development regulations unique to the use include townhomes, multi-family dwellings, family care homes, and home child care centers. Uses permitted upon issuance of a Special Use Permit by the Board of Adjustment include group care facilities, golf courses, churches (more than 350 seats), and new schools. There is a list of all permitted uses for this zoning district, including the uses subject to supplemental development standards and/or requiring the issuance of a Special Use Permit, within the agenda packet for your reference.

Proposed Zoning: The Reeves Property Conditional Zoning District is a Type 1 Conditional Zoning District that is created as a stand-alone district with its own unique conditions. Under a Conditional Zoning District Type 1, an owner would have the freedom to develop his/her own unique list of permitted uses and design standards. It is also understood that such a district would need to be designed so as to maintain the integrity and characteristics of the surrounding community as well as conform to the spirit and intent of the Zoning Ordinance. A Conditional Zoning District Type 1 would be most suitable in situations where none of the current conventional Zoning Districts accommodate the desired use(s), such as a large mixed-use planned development in which the owner/developer has a clear vision as to how the property is to be developed.

Only the property owner(s) of a proposed Conditional Zoning District Type 1 shall be eligible to apply for rezoning to a Conditional Zoning District, and all owners of property proposed for inclusion in the conditional zoning must petition for the rezoning. The owner shall specify the use(s) of the property and shall propose additional conditions to ensure compatibility between the development and the surrounding neighborhood. The conditions shall include all of the following (as applicable):

- The location on the property of the proposed use(s);
- The number of dwelling units;
- The location/extent of supporting facilities such as parking lots, driveways, and access streets;
- The location and extent of buffer areas and other special purpose areas;
- The timing of development;

- The location and extent of rights-of-way and other areas to be dedicated for public purposes;
- And any other such conditions the applicant may wish to propose.

The application shall include a site plan/subdivision plan and detailed narrative text that specifies the conditions that will govern the development and use of the property. If approved, this information is legally binding on the land; therefore, the site has to be developed as per the approved plans and conditions even if a property transfer were to take place. Any items not specifically addressed in the rezoning process must comply with the UDO standards.

As reminder, the conditional zoning process is a negotiated zoning process and, as such, the City Council and/or Planning Board may request that certain conditions be considered or altered. However, the petitioner must accept such conditions before inclusion in the conditional zoning district.

The conceptual information submitted for this rezoning request was reviewed by our Sanford/Lee County Technical Review Committee (TRC), which is comprised of staff representatives from various departments and governmental agencies. The TRC was amenable with the rezoning request associated with this project moving forward for review/approval by the Planning Board and the City Council. However, all outstanding TRC requirements and revisions must be addressed prior to the development of the site in the manner proposed. This includes an actual technical review of the development plans for this project to ensure compliance with all required technical specifications and codes of all governmental agencies prior to staff level approvals being issued for the development of the site. For example, NCDOT must approve all proposed connections to NCDOT maintained public roadways and the City Engineering Dept. must approve all proposed public water and sewer extensions/connections.

The following information is applicable for the Reeves Property Conditional Zoning District.

- 48.94+/- acres total site per the site plan
- Developed as a residential subdivision, with townhomes and single-family homes
- 233 lots total
- 71 single-family homes
- 162 townhome units
- Density is approximately 5 units per acre (233 units / 46.7 acres = 4.99 units per acre)
- Single family home setbacks are 20ft front, 15ft rear, and 5ft side (10ft corner)
- Single-family home lot width is 40ft x 125ft depth = 5,000sf
- Townhome setbacks are 20ft front and 15ft rear
- Townhome lot width is 20ft x 100ft depth = 2,000sf
- Total open space provided is 20 acres (20 acres / 46.7 acres = 42.8% open space)
- Sidewalks would be installed on both sides of the new public roads
- Curb and gutter would be incorporated into the new public roads
- Stormwater facilities would be incorporated into the design as illustrated on the concept plan
- Street trees shall be installed as illustrated on the concept plan with one tree per single-family lot and one tree between townhome buildings (due to the proximity of driveways).
- A four (4) foot high wire fence with shrubs shall be installed along the rear of the site which adjoins the property owned by the Larue Family.
- Shall grant an easement as deemed necessary by the City for connection to the adjoining YMCA and proposed greenways (along the existing stream crossing).

A preliminary subdivision plat that corresponds with the overall design, uses, conditions, design standards, and maximum densities denoted within this rezoning application and on the concept plans shall be required to be approved by the City Council prior to the issuance of final plat recordation and development permits for the parcels included within the Reeves Property Conditional Zoning District. Please reference the concept subdivision/site/architectural plans (Reeves Property Conditional Re-Zoning Site Plan and architectural plans) submitted as part of the rezoning application. The portion of the design located within the 100-year floodplain is subject to review/compliance with the floodplain regulations of the UDO at the time of the actual technical plan review by the TRC and the design may need to be revised accordingly.

Adjacent Zoning

North: Residential Mixed (R-12), Opposite Wicker Street
South: Residential Mixed (R-12)
East: General Commercial (C-2) and Office & Institutional (O&I)
West: Residential Mixed (R-12)

Adjacent Land Use

North: Kiwanis Family Park, Opposite Wicker Street
South: A house on 60 acres at 1312 Carthage Street
East: General Commercial (C-2) and Office & Institutional (O&I)
West: Parkview Retirement Center and a house on 28 acres at 2614 Buffalo Church Rd

PLAN SANLEE

The long-range land use plan identifies the property as Urban Neighborhood, which are higher density residential neighborhoods in the City core that are walkable to adjacent urban commercial districts, in which grid street networks are the typical development form. The local example is North 4th, 5th and 6th Streets in Sanford. Information from the land use plan is provided as attachments to this report for your reference.

LOCAL OVERLAY DISTRICTS

Upon review of the local overlay districts, the following are applicable for this site:

UDO, Article 13 Flood Hazard Regulations Overlay: The site has Flood Hazard Area/floodplain along the eastern property line associated with Skunk Creek and all future development within this area must comply with the UDO floodplain regulations. Floodplain means any land area susceptible to being inundated by water from any source. Development within this area is allowed, but there are floodplain management regulations (zoning ordinances, subdivision regulations, building codes, health regulations, special purpose ordinances, and other applications of police power which control development in flood-prone areas) that are applicable for development within this area. These federal, state or local regulations, in any combination thereof, provide standards for preventing and reducing flood loss and damage.

General Note: Sanford, Lee County, and Broadway do not have a local grading permit or stormwater ordinance and rely on the NC Department of Environmental Quality to regulate land disturbing activities. For questions or concerns regarding land disturbing activities, contact the NC Division of Energy, Mineral, and Land Resources Sediment Program via mail 1612 Mail Service Center, Raleigh, NC 27699-

1612, via phone at 877-623-6748 or visit the NCDEQ website at <http://deq.nc.gov>. The physical address of the office is 217 W. Jones Street, Raleigh, NC 27603.

UTILITIES

There is a public water main line located in the right-of-way of Wicker Street. Public sewer is proposed to be extended from existing sewer located on the adjoining lot owned by the City of Sanford. This information is per our GIS mapping system and, if the rezoning is approved, all new development and/or water and sewer connections must be approved by the City of Sanford Public Works Dept./Engineering Dept. to verify compliance with all policies and regulations, including – but not limited to – off site improvements or upgrades.

TRANSPORTATION

There is approximately 846 feet of frontage on Wicker Street, which is a NCDOT maintained public roadway with a 100ft right-of-way in the area of the subject property. This information is per our GIS mapping system and NCDOT must approve any proposed driveways via the site plan review/approval process to verify compliance with all applicable regulations, including – but not limited to - traffic studies and roadway improvements/turn lanes. The 2011 Lee County Comprehensive Transportation Plan illustrates Wicker Street as an existing boulevard with no improvement noted. There is a 2020 NCDOT AADT of 6,200 vehicles per day near the Legion Drive intersection.

DEVELOPMENT STANDARDS

If rezoned, the land uses, densities, and design associated with the Reeves Property Conditional Zoning District would apply. Any design standards not addressed within the conditional zoning district would be required to meet the current general development standards of the UDO. Townhome development would be subject to the multi-family design standards; however, a conditional rezoning request may alter these standards.

Regarding future development of the subject property, a preliminary subdivision plat that corresponds with the overall design, uses, conditions, design standards, and maximum densities denoted within this application and on the concept plans (civil and architectural) will be required to be approved by the Sanford City Council in the same procedural manner as all preliminary major subdivision plats prior to the signing/recordation of the final plat and issuance of development permits for the parcels included within the Reeves Property Conditional Zoning subject property.

PUBLIC INFORMATION MEETING

Provided below is information regarding public information meetings for your reference:

A public information meeting was held on Monday, March 7, 2022 at 6:00pm in the Council Chambers at the Sanford Municipal Center with two adjoining property owners, three staff members, and three applicant/property owner representatives in attendance. The main topics of conversation/concerns discussed were as follows:

- The site is unique with regard to location & local historical significance (Reeves family); therefore, the development of the site should have a unique design customized to this site and not a “blanket” design as is typical of development by most tract builders.
- The existing homes and site improvements (tennis courts), etc. will be demolished with only an existing bridge over the creek remaining.

- There is a lack of tree preservation within this design and within the City in general. Other towns seem to value the preservation of existing trees, which can enhance the existing community as well as new development.
- The land disturbance/grading that would be required for this site to be developed as illustrated on the plan would change the appearance of the site and perhaps require retaining walls to be constructed along Wicker Street, which is the part of the site with the lower elevations.
- The mass grading of the site in order to develop it in the manner proposed may dramatically alter the existing appearance of the site.
- A larger undisturbed (& enhanced if warranted) landscape buffer should be created along the perimeter property line adjoining the Parkview Retirement Center to assist with separating this new residential development from the assisted living/nursing facility.
- Concern was expressed regarding the potential for dogs/cats/domestic pets for 253 new residents within this subdivision to roam the adjoining properties and become a nuisance to others who live in the area.
- Concern was expressed regarding the potential for the children of 253 new residents within this subdivision to trespass onto the larger adjoining tracts of land and to use the neighbor's land as their open space (walking, climbing trees, riding bicycles, riding ATVs, etc.); thereby, being a nuisance and safety issue for the adjoining property owner.
- The applicant was asked to install a fence along the rear property line adjoining the 59.9 acres owned by the Larue family (1312 Carthage Street), citing the all of the concerns previously mentioned. Their property has been in Mrs. Larue's family for many years and they feel very protective of it. They already have problems with illegal dumping from area residents and litter.

A public information meeting was held on Thursday, July 14th, 2022 in the Buggy Factory Conference Room with one adjoining property owner present. The main topics of conversation/concerns discussed were as follows:

- Further concern was expressed regarding the potential for dogs/cats/domestic pets for 253 new residents within this subdivision to roam the adjoining properties and become a nuisance to others who live in the area.
- Further concern was expressed regarding the potential for the children of 253 new residents within this subdivision to trespass onto the larger adjoining tracts of land and to use the neighbor's land as their open space and recreation.
- The applicant was asked to install a fence along the rear property line adjoining the 59.9 acres owned by the Larue family (1312 Carthage Street), citing the all of the concerns previously mentioned at this meeting and the previous neighborhood meeting on March 7th.

A public information meeting was held on Wednesday, September 14th, 2022 in the Buggy Factory Conference Room with one adjoining property owner present. The main topics of conversation/concerns discussed were as follows:

- Further concern was expressed regarding the potential for dogs/cats/domestic pets for 253 new residents within this subdivision to roam the adjoining properties and become a nuisance to others who live in the area.
- Further concern was expressed regarding the potential for the children of 253 new residents within this subdivision to trespass onto the larger adjoining tracts of land and to use the neighbor's land as their open space and recreation.

- The applicant was asked to install a fence along the rear property line adjoining the 59.9 acres owned by the Larue family (1312 Carthage Street), citing the all of the concerns previously mentioned at this meeting and the previous neighborhood meeting on March 7th.

STAFF RECOMMENDATION

The rezoning request complies with the *Plan SanLee* designation of Urban Neighborhood, which lists single-family dwellings up to 10 units per acre as a desired development density (the proposed project has a density of 5 units per acre). Furthermore, the proposed project meets the preferred character of the Urban Neighborhood future land-use area in that it implements curb and gutter with sidewalks on both sides of the right-of-way, street trees, and the developer has offered to implement on-street parking if the City chooses to accept it. The proposed development also seeks to prioritize the transportation methods listed in the *Plan SanLee* including: sidewalks, off-street trails, and proposed future connections with the adjoining YMCA. Staff acknowledges that the applicant has greatly improved the proposed project in comparison with previous iterations and has incorporated staff recommendations regarding walking trails, open space, connectivity, and streetscape improvements. The developer has responded to concerns regarding development within the floodplain and has amended the plan to remove construction from within the floodplain along with a greater retention of existing natural buffers; however, the developer has not submitted a grading plan as was previously recommended (per George Young of Mattamy Homes, this plan is currently being created). Overall, staff is supportive of the rezoning request as the applicant has worked closely with staff to correct prior issues from previous iterations of this project.

Any/all revisions may trigger an amendment to the conditional zoning district despite any language to the contrary on information submitted by the applicant. Additional information presented at the public hearing should also be considered in the recommendation and the final decision regarding the requested zoning map amendment.

PLANNING BOARD RECOMMENDATION

Per state law, when conducting a review of a proposed zoning text or map amendment, the planning board shall advise and comment on whether the proposed action is consistent with any comprehensive plan that has been adopted and any other officially adopted plan that is applicable. The planning board shall provide a written recommendation to the governing board that addresses plan consistency and other matters as deemed appropriate by the planning board, but a comment by the planning board that a proposed amendment is inconsistent with the comprehensive plan shall not preclude consideration or approval of the proposed amendment by the governing board. If no written report is received from the planning board within 30 days of referral of the amendment to that board, the governing board may act on the amendment without the planning board report. The governing board is not bound by the recommendations, if any, of the planning board

Sample Motions

The Planning Board shall provide a written recommendation to the City Council that addresses plan consistency and other matters as deemed appropriate by the Planning Board. These sample motions are provided by staff based on information in the *Plan SanLee* land use plan. The Planning Board members are free to create a unique motion based on different articulated findings, information that was provided during the public hearing, or other matters deemed important by the Board.

VOTE #1: APPROVE A STATEMENT ON CONSISTENCY WITH THE PLAN SANLEE AS IT RELATES TO THIS ZONING MAP AMENDMENT:

Motion Option 1: *“I make a motion that the proposed zoning map amendment **IS** consistent with the Plan SanLee long range plan designation of Urban Neighborhood because it does allow attached and detached single-family dwellings as proposed land uses.”*

Motion Option 2: *“I make a motion that the proposed zoning map amendment **IS NOT** consistent with the Plan SanLee long range plan designation of Urban Neighborhood because the design does not incorporate several of the design features that are components of this designation, such as sidewalks along Wicker Street that would make it walkable to adjacent/nearby urban commercial districts.”*

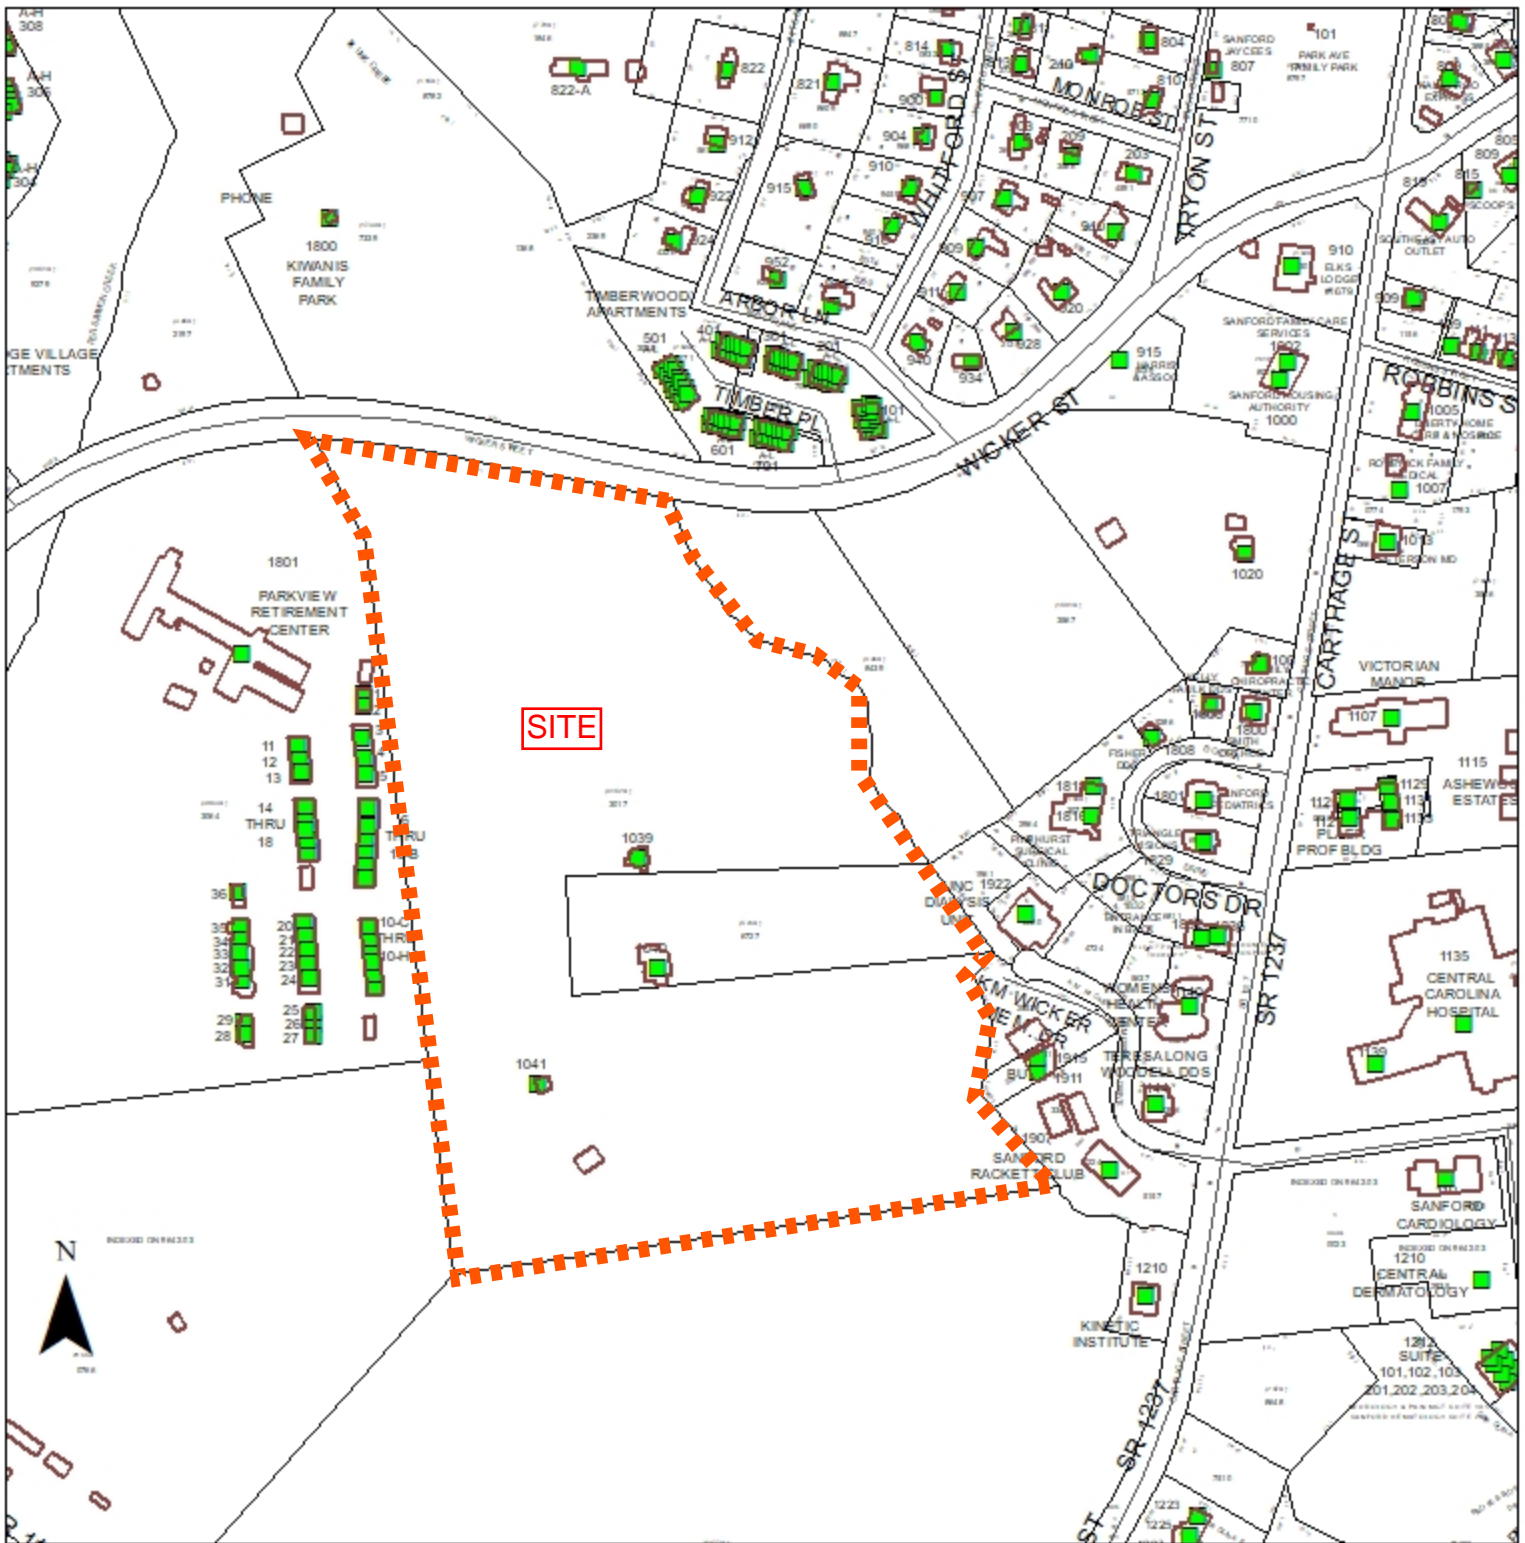

Motion Option 3 - Unique motion: The Planning Board members are free to create a unique motion based on different articulated findings, information that was provided during the public hearing, or other matters deemed important by the Board.

VOTE #2: TO APPROVE OR DENY THE ZONING MAP AMENDMENT:

Motion Option 1: *“I make a motion that Planning Board recommend the City Council **APPROVE** the proposed zoning map amendment because the adopted long-range plan is supportive of the land uses and the design submitted as part of the conditional rezoning request and it is reasonable and in the public interest since it has access to/utilizes public water and sewer.”*

Motion Option 2: *“I make a motion that the Planning Board recommend the City Council **DENY** the rezoning request because the proposed design submitted as part of the conditional rezoning request is not appropriate for this location.”*

Motion Option 3 - Unique motion: The Planning Board members are free to create a unique motion based on different articulated findings, information that was provided during the public hearing, or other matters deemed important by the Board.

CITY OF SANFORD
CITY COUNCIL AND PLANNING BOARD
PUBLIC HEARING INFORMATION
October 11th, 2022

REQUEST

Randy King of Pulte Home Company LLC is requesting to rezone one (1) tract of land comprising 47.35 +/- acres at 1715 Carthage Street from Residential Mixed (R-12) to the Carthage Street Residential Subdivision Conditional Zoning District to allow for the development of “a diverse development of single family and ranch detached dwellings” as described on the “1715 Carthage Street Concept Sketch” submitted as part of the application. This is a site plan/subdivision plan specific conditional rezoning request; therefore, the conceptual development plans and proposed conditions are required as part of the rezoning request.

Public notification consisted of publishing a legal notice in the local newspaper, notification by mail to adjacent property owners, and public hearing signs placed on the property as per the requirements of the North Carolina General Statutes.

GENERAL INFORMATION

Applicant: Pulte Home Company LLC (Randy King)
Property Owners: 1715 Carthage Street LLC (Timothy R Smith)
Request: Rezone from Residential Mixed (R-12) to Carthage Street Residential Subdivision CZ District
Location: 1715 Carthage Street, Sanford, NC 27330
Acreage: 47.35
Tax Parcels: 9641-09-5617-00
Tax Map: 9641.01
Township: West Sanford
Council Ward: Unassigned
Fire District: Tramway Fire Department
Schools: JR Ingram Elementary | SanLee Middle School | Southern Lee High School

SITE DESCRIPTION

The site is located on Carthage Street between Gloucester Drive and Tyndall Drive. The site has two structures but is primarily vacant and wooded.

ZONING DISTRICT INFORMATION

Existing Zoning: The **Residential-Mixed (R-12)** district is established to provide areas for detached single-family homes, with a maximum of three and one-half (3.5) dwelling units per acre, in areas where large-lot development is discouraged and adequate public facilities and services are available. This district provides minimum lot size and density requirements in order to allow for market and design flexibility while preserving the neighborhood character.

Minimum lot size: 12,000sf

Staff Report - Conditional Rezoning Request from R-12 to Carthage Street Residential Subdivision CZ District

Minimum lot width:	75ft
Minimum lot depth:	100ft
Minimum building setback, front:	30ft, measured from the r/o/w of the public street
Minimum building setback, rear:	20ft, measured from rear property line
Minimum building setback, side(s):	12ft, measured from side property lines
Maximum building height:	40ft
Maximum impervious surface:	N/A, not taking into consideration watershed regulations

Examples of uses permitted by right within the R-12 zoning district include single-family homes, duplexes, and churches (less than 350 seats). Uses permitted subject to supplemental development regulations unique to the use include townhomes, multi-family dwellings, family care homes, and home child care centers. Uses permitted upon issuance of a Special Use Permit by the Board of Adjustment include group care facilities, golf courses, churches (more than 350 seats), and new schools. There is a list of all permitted uses for this zoning district, including the uses subject to supplemental development standards and/or requiring the issuance of a Special Use Permit, within the agenda packet for your reference.

Proposed Zoning: The Carthage Street Residential Subdivision Conditional Zoning District is a Type 1 Conditional Zoning District that is created as a stand-alone district with its own unique conditions. Under a Conditional Zoning District Type 1, an owner would have the freedom to develop his/her own unique list of permitted uses and design standards. It is also understood that such a district would need to be designed so as to maintain the integrity and characteristics of the surrounding community as well as conform to the spirit and intent of the Zoning Ordinance. A Conditional Zoning District Type 1 would be most suitable in situations where none of the current conventional Zoning Districts accommodate the desired use(s), such as a large mixed-use planned development in which the owner/developer has a clear vision as to how the property is to be developed.

Only the property owner(s) of a proposed Conditional Zoning District Type 1 shall be eligible to apply for rezoning to a Conditional Zoning District, and all owners of property proposed for inclusion in the conditional zoning must petition for the rezoning. The owner shall specify the use(s) of the property and shall propose additional conditions to ensure compatibility between the development and the surrounding neighborhood. The conditions shall include all of the following (as applicable):

- The location on the property of the proposed use(s);
- The number of dwelling units;
- The location/extent of supporting facilities such as parking lots, driveways, and access streets;
- The location and extent of buffer areas and other special purpose areas;
- The timing of development;
- The location and extent of rights-of-way and other areas to be dedicated for public purposes;
- And any other such conditions the applicant may wish to propose.

The application shall include a site plan/subdivision plan and detailed narrative text that specifies the conditions that will govern the development and use of the property. If approved, this information is legally binding on the land; therefore, the site has to be developed as per the approved plans and conditions even if a property transfer were to take place. Any items not specifically addressed in the rezoning process must comply with the UDO standards.

As reminder, the conditional zoning process is a negotiated zoning process and, as such, the City Council and/or Planning Board may request that certain conditions be considered or altered. However, the petitioner must accept such conditions before inclusion in the conditional zoning district.

The conceptual information submitted for this rezoning request was reviewed by our Sanford/Lee County Technical Review Committee (TRC), which is comprised of staff representatives from various departments and governmental agencies. The TRC was amenable with the rezoning request associated with this project moving forward for review/approval by the Planning Board and the City Council. However, all outstanding TRC requirements and revisions must be addressed prior to the development of the site in the manner proposed. This includes an actual technical review of the development plans for this project to ensure compliance with all required technical specifications and codes of all governmental agencies prior to staff level approvals being issued for the development of the site. For example, NCDOT must approve all proposed connections to NCDOT maintained public roadways and the City Engineering Dept. must approve all proposed public water and sewer extensions/connections.

The following information is applicable for the Reeves Property Conditional Zoning District.

All homes shall be single-family detached, with a minimum lot size of 6,000 sf.

- Minimum lot widths will be 45' at the front setback. The following setbacks apply to the principal structures:
 - Front-20' as measured from the right of way of the public street;
 - Rear-15' as determined by the orientation of the house & rear property line;
 - Side-5' as measured from the left & right side property lines; and
 - Corner Side-10' as measured from the secondary public right of way.
- At least 50% of the lots shall have a minimum lot width of 51' at the front setback and the same setbacks for principal structures as listed above.
- Ranch homes will have a minimum of 1,500 square feet of heated area. Two-story homes will have a minimum of 1,700 square feet of heated area.
- No home can be constructed with either an exterior elevation (front façade) or color palette that is identical to the home on either side or directly across the street from it.
- All homes must include a two-car enclosed garage
- All homes must include either a front-facing roof gable, a dormer, or covered front porch.
- All front and side yards must be sodded
- Rear yards can be seeded and strawed
- All driveways must be concrete
- All homes must have concrete walks from the driveway or front sidewalk to the front door
- The mail kiosk will be covered
- Street trees to be placed 80' O.C. maximum. 80' O.C may be exceeded at intersections and easements.
- A 15' buffer shall be provided along Carthage St. One (1) of the following will be provided: a) landscaped screening b) fence or c) berm

Please reference the rezoning application, letter, master plan, concept plan, and architectural elevations for information regarding the specifics of this site plan/subdivision plan specific rezoning request.

PLAN SANLEE

The long-range land use plan identifies the subject property as Suburban Neighborhood which is defined as residential areas on the outskirts of a core urbanized area that facilitate the development of large-scale neighborhoods, including mixed use components in appropriate areas, that are walkable with a high degree of transportation connectivity between neighborhoods and surrounding network thoroughfares. The local example provided is the Westlake Valley Neighborhood in Sanford. Information from the land use plan is provided as attachments to this report for your reference.

LOCAL OVERLAY DISTRICTS

Per Lee County GIS, the subject property does not appear to be located within a local historic district nor a Watershed Conservation Overlay District; however, the site does appear to contain an established Flood Hazard Area (floodplain) running through the rear of the property.

The following is a general note included with all rezoning requests: Sanford, Lee County, and Broadway do not have a local grading permit or stormwater ordinance and rely on the NC Department of Environmental Quality to regulate land disturbing activities. For questions or concerns regarding land disturbing activities, contact the NC Division of Energy, Mineral, and Land Resources Sediment Program via mail 1612 Mail Service Center, Raleigh, NC 27699-1612, via phone at 877-623-6748 or visit the NCDEQ website at <http://deq.nc.gov>. The physical address of the office is 217 W. Jones Street, Raleigh, NC 27603.

UTILITIES

The site appears to have access to public water main lines along Carthage Street. The site appears to have access to public sanitary sewer from lines extending from Tramway Road to Chownings Drive through the rear of the subject property. This information is per our GIS mapping system and, if the rezoning is approved, all new development and/or water and sewer connections must be approved by the City of Sanford Public Works Dept./Engineering Dept. to verify compliance with all policies and regulations, including—but not limited to—off site improvements or upgrades. Private wells and septic systems must be approved by the Lee County Environmental Health Dept. and/or the appropriate State agency, whichever is applicable.

TRANSPORTATION

The site has frontage on Carthage Street (SR-1237) which is an NCDOT owned and maintained secondary route with a 60ft right-of-way. Gloucester Drive briefly extends parallel to the site from Carthage Street; however, the site does not directly abut Gloucester Drive. This information is per our GIS mapping system and NCDOT must approve any proposed driveways via the site plan review/approval process to verify compliance with all applicable regulations, including – but not limited

to - traffic studies and roadway improvements/turn lanes. It should be noted that the site does not have access to a public roadway at this time or possibly ever.

2011 Lee County Comprehensive Transportation Plan: The 2011 Lee County Comprehensive Transportation Plan has designated Carthage Street as a major thoroughfare in need of improvement.

NCDOT Average Annual Daily Traffic Count (AADT): There is a 2020 NCDOT AADT count of 4,900 vehicles per day on Carthage Street in the general area of the subject property.

DEVELOPMENT STANDARDS

If approved, this information is legally binding on the land; therefore, the site has to be developed as per the approved plans and conditions even if a property transfer were to take place. Any items not specifically addressed in the rezoning process must comply with the UDO standards.

PUBLIC INFORMATION MEETING

Provided below is information regarding public information meetings for your reference:

A public information meeting was held on September 15th, 2022 at 6:00pm with staff, project representatives, and three (3) citizens in attendance. The main topics of conversation/concerns discussed were as follows:

- Concerns regarding traffic near the site.
- Concerns regarding potential impacts upon the existing Carthage Colonies subdivision.
- Generalized concerns regarding the pace of growth along Carthage Street and the area surrounding the site.

STAFF RECOMMENDATION

The rezoning request complies with the Plan SanLee long-range plan designation of Suburban Neighborhood which lists medium and low density single-family detached dwellings as a desired land use. The proposed project has incorporated the preferred character of the future land use area with street trees, sidewalks, and interconnected curvilinear streets. Based on this rationale, staff is supportive of this rezoning request as it appears to align with be the future land use plan for this area. The boards will need to take into consideration the adjoining residential subdivision and the possible impact that this conditional zoning may have on the area residents.

Additional information presented at the public hearing should also be considered in the recommendation and the final decision regarding the requested zoning map amendment.

PLANNING BOARD RECOMMENDATION

Per state law, when conducting a review of a proposed zoning text or map amendment, the planning board shall advise and comment on whether the proposed action is consistent with any comprehensive plan that has been adopted and any other officially adopted plan that is applicable. The planning board shall provide a written recommendation to the governing board that addresses plan consistency and other matters as deemed appropriate by the planning board, but a comment by the planning board that a proposed amendment is inconsistent with the comprehensive plan shall not preclude consideration or approval of the proposed amendment by the governing board. If no written report is received from the planning board within 30 days of referral of the amendment to that board, the governing board may act

on the amendment without the planning board report. The governing board is not bound by the recommendations, if any, of the planning board

Sample Motions

The Planning Board shall provide a written recommendation to the City Council that addresses plan consistency and other matters as deemed appropriate by the Planning Board. These sample motions are provided by staff based on information in the *Plan SanLee* land use plan. The Planning Board members are free to create a unique motion based on different articulated findings, information that was provided during the public hearing, or other matters deemed important by the Board.

VOTE #1: APPROVE A STATEMENT ON CONSISTENCY WITH THE PLAN SANLEE AS IT RELATES TO THIS ZONING MAP AMENDMENT:

Motion Option 1: *“I make a motion that the proposed zoning map amendment IS consistent with the Plan SanLee long range plan designation of Suburban Neighborhood because it allows low density single-family detached dwellings as a secondary future land use.”*

Motion Option 2: *“I make a motion that the proposed zoning map amendment IS NOT consistent with the Plan SanLee long range plan designation of Suburban Neighborhood because it is below the desired density for its respective future land use designation.”*

Motion Option 3 - Unique motion: The Planning Board members are free to create a unique motion based on different articulated findings, information that was provided during the public hearing, or other matters deemed important by the Board.

VOTE #2: TO APPROVE OR DENY THE ZONING MAP AMENDMENT:

Motion Option 1: *“I make a motion that Planning Board recommend the City Council **APPROVE** the proposed zoning map amendment because the site is appropriate for the desired land uses and densities.”*

Motion Option 2: *“I make a motion that Planning Board recommend the City Council **DENY** the proposed zoning map amendment because the site is not appropriate for the desired land uses and densities.”*

Motion Option 3 - Unique motion: The Planning Board members are free to create a unique motion based on different articulated findings, information that was provided during the public hearing, or other matters deemed important by the Board.

Re: Truelove Street Apartments - Conditional District Rezoning
Project No: 22-RDU-032

Most honorable Board Members,

The proposed Conditional Zoning request proposes to rezone a portion of the existing C-2 commercial district to Multi-Family Residential. The subject property is identified as a Commercial Corridor in the SanLee Plan which identifies Multi-Family Residential as a desired use. The property was recently subdivided (PC 2022, Slide 92) in order to create a 1.55 acre commercial parcel along South Horner Blvd and the subject 7.22 acre multifamily parcel. The property is located behind the existing Lidl Grocery, Harbor Freight, and the newly created commercial property which all front along South Horner Blvd to the west. To the north of the property is 421 business, to the south is existing vehicle storage for the car dealership, and to the east are existing single-family homes. The property is accessed via Truelove Street and via a shared access easement to South Horner Blvd/NC 87. Water is accessible to the property via a utility easement from South Horner Blvd to the west and in Truelove Street to the east. Sanitary sewer is available via a utility easement to the South Horner Blvd to the west and a utility easement that enters the property from the southern adjacent property.

The proposed plan calls for up to 180 multifamily apartments (25 units per acre max density) consisting of one-, two-, and three-bedroom units. Amenities on site will include a clubhouse consisting of a fitness center, business center, and lounge, a swimming pool with grilling areas, shade structures, fire pit, and a dog park. Building exteriors shall feature a combination of masonry materials (either or any combination of brick, stucco, or synthetic stone) and cementitious siding products consisting of lap siding and flat panels with batons. Simulated cedar shakes shall also be a permitted exterior material. Windows shall provide divided light grills on at least the upper sash and balconies shall provide railings constructed from either vinyl, or painted aluminum, steel or wood. Powder coated railings shall also be permitted. Primary roof pitches shall be a minimum of 5/12 and shed roofs shall be a minimum of 2/12 pitch. Permitted roofing materials shall consist of asphalt shingles and metal roofing materials. The community will also include enhanced landscape design and plantings above and beyond the City's minimum requirements including but not limited to enhanced landscape buffers, foundation, and parking lot plantings, as well as enhanced entryway and amenity landscape. Please reference the included Planting Concept Plan included in the conditional district rezoning application.

The project team believes the proposed project supports the overall vision of the SanLee Plan for this area by providing a mix of residential housing types and density to support this commercial corridor. Additionally, we believe the proposed multifamily community will provide a much-needed transition between the more intense commercial uses located along South Horner Blvd to the west and single-family residences to the east.

Subject: Trip Generation Letter

Dear Mr. Kitchen:

This letter provides an estimate of the trip generation for the proposed Truelove Street apartments to be located south of US 421 and east of NC 87 in Sanford, North Carolina. The proposed residential development is anticipated to consist of 180 low-rise apartment units. Site access is proposed via one (1) shared driveway connection to NC 97 and one (1) driveway connection to Truelove Street.

Trip Generation

Average daily traffic, weekday AM and weekday PM peak hour trips for the proposed development were estimate using the methodology contained within the ITE *Trip Generation Manual*, 11th Edition. Table 1 provides a summary of the trip generation potential for the proposed development based on the LUC 220 [Multi-Family Housing (Low-Rise)] trip generation equations.

Table 1: Site Trip Generation Summary

Land Use (ITE Code)	Intensity	Daily Traffic (vpd)	Weekday AM Peak Hour Trips (vph)		Weekday PM Peak Hour Trips (vph)	
			Enter	Exit	Enter	Exit
Multifamily Housing (Low-Rise) (220)	180 units	1,229	19	60	62	36

As shown in Table 1, it is estimated that the buildout of the development is expected to generate approximately 1,229 trips during a typical 24-hour weekday period. Of the daily site trips, it is anticipated that 79 trips (19 entering and 60 exiting) are to occur during the weekday AM peak hour and 98 trips (62 entering and 36 exiting) are to occur during the weekday PM peak hour. It should be noted that the City of Sanford

(City) does not have an established threshold for requiring a TIA but that the typical threshold for NCDOT to require a TIA is 3,000 trips per day, which this development is anticipated to generate significantly less than.

Findings and Summary

Based on the trip generation results, it is expected that the proposed Truelove Street apartments will have minimal impact on the surrounding roadway network. The peak hour trip generation potential for this proposed development is expected to be under the typical threshold for NCDOT to require a TIA.

CITY OF SANFORD
CITY COUNCIL AND PLANNING BOARD
PUBLIC HEARING INFORMATION
September 20th, 2022

REQUEST

Brian Richards of Urban Design Partners is requesting to rezone one (1) tract of land comprising 7.21 +/- acres at 3239 NC Hwy 87 S from General Commercial (C-2) to the Truelove Street Apartments Conditional Zoning District to allow for the development of a multi-family development as depicted in the “Truelove St. Concept Plan” submitted as part of the application. This is a site plan/subdivision plan specific conditional rezoning request; therefore, the conceptual development plans and proposed conditions are required as part of the rezoning request.

Public notification consisted of publishing a legal notice in the local newspaper, notification by mail to adjacent property owners, and public hearing signs placed on the property as per the requirements of the North Carolina General Statutes.

GENERAL INFORMATION

Applicant: Brian Richards (Urban Design Partners)
Property Owners: Highway 54 Partners (Represented by Roy Mashburn)
Request: Rezone from General Commercial (C-2) to Truelove Street Apartments Conditional Zoning District
Location: 3239 NC Hwy 87 S, Sanford, NC 27332
Acreage: 7.21
Tax Parcels: 9661-27-0612-00
Tax Map: 9661.01
Township: Jonesboro
Council Ward: Ward 5
Fire District: City Station #2

SITE DESCRIPTION

The site is located at 3239 NC Hwy 87 S, Sanford, NC 27332 between NC Hwy 87 and the intersection of US Hwy 421 and US 421 Bypass.

ZONING DISTRICT INFORMATION

Existing Zoning: The General Commercial (C-2) zoning district is established to provide areas for general commercial activities designed to serve the community such as shopping centers, repair shops, wholesale businesses, and retail sales with limited outdoor display of goods and limited outdoor operations. This district promotes a broad range of commercial operations and services necessary for large regions of the County, providing community balance. C-2 zones should be located on or within proximity to major thoroughfares.

Minimum lot size: N/A

Minimum lot width:	50ft
Minimum lot depth:	100ft
Minimum building setback, front:	10ft, measured from the r/o/w of the public street
Minimum building setback, rear:	Determined by the required landscape buffer yard width
Minimum building setback, side(s):	Determined by the required landscape buffer yard width
Maximum building height:	N/A
Maximum impervious surface:	80%, not taking into consideration watershed regulations

Examples of uses permitted by right within the C-2 zoning district include administrative services, antique shops, appliance sales/repair/maintenance, bakeries, computer & software sales, convenience stores with & without gas sales, dry cleaning & laundry, farm/landscape/garden supply with or without outdoor storage, grocery stores & supermarkets (all sizes), hardware/home centers/lumber yard/ heating & plumbing with indoor & outdoor storage, motor vehicle sales & service, office buildings, professional services (legal, accounting, architectural, etc.), real estate sales/rental/leasing, restaurants with drive-in or drive-through facilities, upholstery & furniture refinishing, and wholesale. There is a list of permitted uses for this zoning district included within the agenda for your reference.

Proposed Zoning: The Truelove Street Apartments Conditional Zoning District is a Type 1 Conditional Zoning District that is created as a stand-alone district with its own unique conditions. Under a Conditional Zoning District Type 1, an owner would have the freedom to develop his/her own unique list of permitted uses and design standards. It is also understood that such a district would need to be designed so as to maintain the integrity and characteristics of the surrounding community as well as conform to the spirit and intent of the Zoning Ordinance. A Conditional Zoning District Type 1 would be most suitable in situations where none of the current conventional Zoning Districts accommodate the desired use(s), such as a large mixed-use planned development in which the owner/developer has a clear vision as to how the property is to be developed.

Only the property owner(s) of a proposed Conditional Zoning District Type 1 shall be eligible to apply for rezoning to a Conditional Zoning District, and all owners of property proposed for inclusion in the conditional zoning must petition for the rezoning. The owner shall specify the use(s) of the property and shall propose additional conditions to ensure compatibility between the development and the surrounding neighborhood. The conditions shall include all of the following (as applicable):

- The location on the property of the proposed use(s);
- The number of dwelling units;
- The location/extent of supporting facilities such as parking lots, driveways, and access streets;
- The location and extent of buffer areas and other special purpose areas;
- The timing of development;
- The location and extent of rights-of- way and other areas to be dedicated for public purposes;
- And any other such conditions the applicant may wish to propose.

The application shall include a site plan/subdivision plan and detailed narrative text that specifies the conditions that will govern the development and use of the property. If approved, this information is legally binding on the land; therefore, the site has to be developed as per the approved plans and conditions even if a property transfer were to take place. Any items not specifically addressed in the rezoning process must comply with the UDO standards.

As reminder, the conditional zoning process is a negotiated zoning process and, as such, the City Council and/or Planning Board may request that certain conditions be considered or altered. However, the petitioner must accept such conditions before inclusion in the conditional zoning district.

The conceptual information submitted for this rezoning request was reviewed by our Sanford/Lee County Technical Review Committee (TRC), which is comprised of staff representatives from various departments and governmental agencies. The TRC was amenable with the rezoning request associated with this project moving forward for review/approval by the Planning Board and the City Council. However, all outstanding TRC requirements and revisions must be addressed prior to the development of the site in the manner proposed. This includes an actual technical review of the development plans for this project to ensure compliance with all required technical specifications and codes of all governmental agencies prior to staff level approvals being issued for the development of the site. For example, NCDOT must approve all proposed connections to NCDOT maintained public roadways and the City Engineering Dept. must approve all proposed public water and sewer extensions/connections.

The following information is applicable for the Truelove Street Apartments Conditional Zoning District:

- Proposed conditions shall follow the Multifamily (MF-12) General Use Zoning District with the exception of allotted density.
- Density shall be 25 units per acre (180 dwelling units / 7.2 acres = 25 units per acre)
- Parking modification to permit overall parking ratio of 1.5 spaces per dwelling unit.

Adjacent Zoning

North: Ashby Village CZ, Residential Single-Family (R-20 & R-20/MH)
South: General Commercial (C-2), Residential Single-Family (R-20)
East: Residential Single-Family (R-20)
West: General Commercial (C-2), Shoppes at Sanford CZ

Adjacent Land Use

North: General Commercial (C-2)—Lidl; Pine Village Mobile Home Park across US Hwy 421
South: General Commercial (C-2)—Harbor Freight Tools
East: Single-family homes in the Homemont Subdivision
West: General Commercial (C-2)—Shoppes at Sanford

PLAN SANLEE

The long-range land use plan identifies the property as Commercial Corridor which represents established commercial developments along the highest volume transportation routes, contains what is traditionally known as “strip” development patterns, and implements connectivity and access improvements in future redevelopment. The local example is South Horner Boulevard in Sanford. Information from the land use plan is provided as attachments to this report for your reference.

LOCAL OVERLAY DISTRICTS

Per GIS, the subject property is not located within a local historic district, a Watershed Conservation Overlay District, or an established Flood Hazard Area (floodplain). The apartment development is subject to the multi-family design standards; however, a conditional rezoning request may alter these standards.

The following is a general note included with all rezoning requests: Sanford, Lee County, and Broadway do not have a local grading permit or stormwater ordinance and rely on the NC Department of Environmental Quality to regulate land disturbing activities. For questions or concerns regarding land disturbing activities, contact the NC Division of Energy, Mineral, and Land Resources Sediment Program via mail 1612 Mail Service Center, Raleigh, NC 27699-1612, via phone at 877-623-6748 or visit the NCDEQ website at <http://deq.nc.gov>. The physical address of the office is 217 W. Jones Street, Raleigh, NC 27603.

UTILITIES

The site appears to have access to public water access via main lines along NC Hwy 87 and Truelove St, and it appears the site has access to public sanitary sewer via main lines along NC Hwy 87. This information is per our GIS mapping system and, if the rezoning is approved, all new development and/or water and sewer connections must be approved by the City of Sanford Public Works Dept./Engineering Dept. to verify compliance with all policies and regulations, including but not limited to offsite improvements or upgrades.

TRANSPORTATION

There is frontage on NC Hwy 87 (NC-87), US Hwy 421 (US-421 BUS), and on Truelove St (NS-9334). NC Hwy 87 and US Hwy 421 are NCDOT owned and maintained while Truelove St is maintained by the City. NC Hwy 87 and US Hwy 421 are identified in the 2011 Lee County Comprehensive Transportation Plan as “Boulevards—Needs Improvement;” Truelove St is not identified in the plan. This information is per our GIS mapping system and NCDOT must approve any proposed driveways via the site plan review/approval process to verify compliance with all applicable regulations, including—but not limited to—traffic studies and roadway improvements/turn lanes.

NCDOT Average Annual Daily Traffic Count (AADT): There is a 2020 NCDOT AADT of 20,500 vehicles per day on NC Hwy 87 S in the area of the site. There is a 2020 NCDOT AADT of 10,000 vehicles per day on US Hwy 421 in the area of the site.

DEVELOPMENT STANDARDS

If rezoned, the land uses, densities, and design associated with the Truelove Street Apartments Conditional Zoning District would apply. Any design standards not addressed within the conditional zoning district would be required to meet the current general development standards of the UDO.

Regarding future development of the subject property, a preliminary subdivision plat that corresponds with the overall design, uses, conditions, design standards, and maximum densities denoted within this application and on the concept plans (civil and architectural) will be required to be approved by the Sanford City Council in the same procedural manner as all preliminary major subdivision plats prior to the signing/recordation of the final plat and issuance of development permits for the parcels included within the Burns Towns Conditional Zoning subject property.

PUBLIC INFORMATION MEETING

Provided below is information regarding public information meetings for your reference:

A Public Information Meeting was held on Wednesday, September 14th with staff and representatives of Urban Design Partners present; however, no citizens were in attendance.

STAFF RECOMMENDATION

The rezoning request complies with the *Plan SanLee* long-range plan designation of Commercial Corridor which lists multifamily dwellings as a secondary land use; however, the plan lists a density of 16 units per acre in relation to this future land use area while the proposed project has a density of 25 units per acre. Staff is supportive of the rezoning as it meets the other criteria of the *Plan SanLee* and would improve accessibility of commercial areas from the proposed residential multi-family site; however, the boards will need to take into consideration the adjoining residential subdivision, existing traffic along NC Hwy 87, and the possible impact that this notable increase in density will have on the surrounding area in order to decide upon this proposed development.

Additional information presented at the public hearing should also be considered in the recommendation and the final decision regarding the requested zoning map amendment.

PLANNING BOARD RECOMMENDATION

Per state law, when conducting a review of a proposed zoning text or map amendment, the planning board shall advise and comment on whether the proposed action is consistent with any comprehensive plan that has been adopted and any other officially adopted plan that is applicable. The planning board shall provide a written recommendation to the governing board that addresses plan consistency and other matters as deemed appropriate by the planning board, but a comment by the planning board that a proposed amendment is inconsistent with the comprehensive plan shall not preclude consideration or approval of the proposed amendment by the governing board. If no written report is received from the planning board within 30 days of referral of the amendment to that board, the governing board may act on the amendment without the planning board report. The governing board is not bound by the recommendations, if any, of the planning board

Sample Motions

The Planning Board shall provide a written recommendation to the City Council that addresses plan consistency and other matters as deemed appropriate by the Planning Board. These sample motions are provided by staff based on information in the *Plan SanLee* land use plan. The Planning Board members are free to create a unique motion based on different articulated findings, information that was provided during the public hearing, or other matters deemed important by the Board.

VOTE #1: APPROVE A STATEMENT ON CONSISTENCY WITH THE PLAN SANLEE AS IT RELATES TO THIS ZONING MAP AMENDMENT:

Motion Option 1: *“I make a motion that the proposed zoning map amendment **IS** consistent with the Plan SanLee long range plan designation of Commercial Corridor because it does allow multifamily dwellings as a proposed land use.”*

Motion Option 2: *“I make a motion that the proposed zoning map amendment **IS NOT** consistent with the Plan SanLee long range plan designation of Commercial Corridor because the proposed development surpasses the density described in the future land use plan for multifamily dwellings within the Commercial Corridor future land use area.*

Motion Option 3 - Unique motion: The Planning Board members are free to create a unique motion based on different articulated findings, information that was provided during the public hearing, or other matters deemed important by the Board.

VOTE #2: TO APPROVE OR DENY THE ZONING MAP AMENDMENT:

Motion Option 1: *“I make a motion that Planning Board recommend the City Council **APPROVE** the proposed zoning map amendment because it is reasonable and in the public interest since the adopted long-range plan is supportive of the land uses and the design submitted as part of the conditional rezoning request utilizes public water and sewer.*

Motion Option 2: *“I make a motion that the Planning Board recommend the City Council **DENY** the rezoning request because the proposed design submitted as part of the conditional rezoning request is not appropriate for this location.”*

Motion Option 3 - Unique motion: The Planning Board members are free to create a unique motion based on different articulated findings, information that was provided during the public hearing, or other matters deemed important by the Board.

Re: Hawkins Village Apartments Conditional Zoning Conditions

MLConsulting of Sanford, LLC hereby agrees to the following conditions to zoning for the Hawkins Village Apartment project.

- Along the common property line within the 20' setback there will be a minimum of a 5' to 6' berm with a 4' minimum green giant arborvitae every 6' apart. See exhibit for where the berm is to be installed.
- Remove sidewalk from project parking lot to Cape Jasmine Drive.
- Relocate trash dumpster to be along the Hwy 421 side and not near Cape Jasmine Drive.

Sincerely,

Mark Lyczkowski
Member/Manager

CITY OF SANFORD
CITY COUNCIL AND PLANNING BOARD
PUBLIC HEARING INFORMATION
October 11th, 2022

REQUEST

Mark Lyczkowski is requesting to rezone one (1) tract of land comprising 22.27 +/- acres at Hawkins Avenue and Cape Jasmine Drive from Residential Mixed (R-12) to the Hawkins Village Apartments Conditional Zoning District to develop the property for multi-family residential development as described on the “Hawkins Village Conceptual Plan” submitted as part of the application. This is a site plan/subdivision plan specific conditional rezoning request; therefore, the conceptual development plans and proposed conditions are required as part of the rezoning request.

Public notification consisted of publishing a legal notice in the local newspaper, notification by mail to adjacent property owners, and public hearing signs placed on the property as per the requirements of the North Carolina General Statutes.

GENERAL INFORMATION

Applicant: Mark Lyczkowski
Property Owners: Railroad Town LLC
Request: Rezone from Residential Mixed (R-12) to Hawkins Village Apartments Conditional Zoning District
Location: Hawkins Ave & Cape Jasmine Drive
Acreage: 22.27
Tax Parcels: 9644-60-0952-00
Tax Map: 9644.04
Township: West Sanford
Council Ward: Ward 2
Fire District: Central Fire Station
Schools: BT Bullock Elementary | East Lee Middle School | Lee Senior High School

SITE DESCRIPTION

The site is located on Hawkins Avenue with access to the stub street at Cape Jasmine Dr in the rear of the site. The site is currently vacant and partially wooded.

ZONING DISTRICT INFORMATION

Existing Zoning: The **Residential-Mixed (R-12)** district is established to provide areas for detached single-family homes, with a maximum of three and one-half (3.5) dwelling units per acre, in areas where large-lot development is discouraged and adequate public facilities and services are available. This district provides minimum lot size and density requirements in order to allow for market and design flexibility while preserving the neighborhood character.

Minimum lot size: 12,000sf
Minimum lot width: 75ft

Minimum lot depth:	100ft
Minimum building setback, front:	30ft, measured from the r/o/w of the public street
Minimum building setback, rear:	20ft, measured from rear property line
Minimum building setback, side(s):	12ft, measured from side property lines
Maximum building height:	40ft
Maximum impervious surface:	N/A, not taking into consideration watershed regulations

Examples of uses permitted by right within the R-12 zoning district include single-family homes, duplexes, and churches (less than 350 seats). Uses permitted subject to supplemental development regulations unique to the use include townhomes, multi-family dwellings, family care homes, and home child care centers. Uses permitted upon issuance of a Special Use Permit by the Board of Adjustment include group care facilities, golf courses, churches (more than 350 seats), and new schools. There is a list of all permitted uses for this zoning district, including the uses subject to supplemental development standards and/or requiring the issuance of a Special Use Permit, within the agenda packet for your reference.

Proposed Zoning: The Hawkins Village Apartments Subdivision Conditional Zoning District is a Type 1 Conditional Zoning District that is created as a stand-alone district with its own unique conditions. Under a Conditional Zoning District Type 1, an owner would have the freedom to develop his/her own unique list of permitted uses and design standards. It is also understood that such a district would need to be designed so as to maintain the integrity and characteristics of the surrounding community as well as conform to the spirit and intent of the Zoning Ordinance. A Conditional Zoning District Type 1 would be most suitable in situations where none of the current conventional Zoning Districts accommodate the desired use(s), such as a large mixed-use planned development in which the owner/developer has a clear vision as to how the property is to be developed.

Only the property owner(s) of a proposed Conditional Zoning District Type 1 shall be eligible to apply for rezoning to a Conditional Zoning District, and all owners of property proposed for inclusion in the conditional zoning must petition for the rezoning. The owner shall specify the use(s) of the property and shall propose additional conditions to ensure compatibility between the development and the surrounding neighborhood. The conditions shall include all of the following (as applicable):

- The location on the property of the proposed use(s);
- The number of dwelling units;
- The location/extent of supporting facilities such as parking lots, driveways, and access streets;
- The location and extent of buffer areas and other special purpose areas;
- The timing of development;
- The location and extent of rights-of-way and other areas to be dedicated for public purposes;
- And any other such conditions the applicant may wish to propose.

The application shall include a site plan/subdivision plan and detailed narrative text that specifies the conditions that will govern the development and use of the property. If approved, this information is legally binding on the land; therefore, the site has to be developed as per the approved plans and conditions even if a property transfer were to take place. Any items not specifically addressed in the rezoning process must comply with the UDO standards.

As reminder, the conditional zoning process is a negotiated zoning process and, as such, the City Council and/or Planning Board may request that certain conditions be considered or altered. However, the petitioner must accept such conditions before inclusion in the conditional zoning district.

The conceptual information submitted for this rezoning request was reviewed by our Sanford/Lee County Technical Review Committee (TRC), which is comprised of staff representatives from various departments and governmental agencies. The TRC was amenable with the rezoning request associated with this project moving forward for review/approval by the Planning Board and the City Council. However, all outstanding TRC requirements and revisions must be addressed prior to the development of the site in the manner proposed. This includes an actual technical review of the development plans for this project to ensure compliance with all required technical specifications and codes of all governmental agencies prior to staff level approvals being issued for the development of the site. For example, NCDOT must approve all proposed connections to NCDOT maintained public roadways and the City Engineering Dept. must approve all proposed public water and sewer extensions/connections.

Please reference the rezoning application, letter, master plan, concept plan, and architectural elevations for information regarding the specifics of this site plan/subdivision plan specific rezoning request.

PLAN SANLEE

The long-range land use plan identifies the subject property as Neighborhood Center which is defined as small scale mixed-use pedestrian oriented commercial centers located around major intersections within Urban Neighborhoods, transitional areas at the edge of a Commercial Corridor or Downtown, or at the edge of a Suburban Neighborhood. The local example provided is the Bragg St / Oakwood Ave intersection in Sanford. Information from the land use plan is provided as attachments to this report for your reference.

LOCAL OVERLAY DISTRICTS

Per Lee County GIS, the subject property does not appear to be located within a local historic district nor a Watershed Conservation Overlay District, nor any established Flood Hazard Area (floodplain).

The following is a general note included with all rezoning requests: Sanford, Lee County, and Broadway do not have a local grading permit or stormwater ordinance and rely on the NC Department of Environmental Quality to regulate land disturbing activities. For questions or concerns regarding land disturbing activities,

contact the NC Division of Energy, Mineral, and Land Resources Sediment Program via mail 1612 Mail Service Center, Raleigh, NC 27699-1612, via phone at 877-623-6748 or visit the NCDEQ website at <http://deq.nc.gov>. The physical address of the office is 217 W. Jones Street, Raleigh, NC 27603.

UTILITIES

The site appears to have access to public water main lines along Hawkins Avenue and Cape Jasmine Dr. The site appears to have access to public sanitary sewer from main lines extending from Fairway Dr extending across Hawkins Ave. This information is per our GIS mapping system and, if the rezoning is approved, all new development and/or water and sewer connections must be approved by the City of Sanford Public Works Dept./Engineering Dept. to verify compliance with all policies and regulations, including—but not limited to—off site improvements or upgrades. Private wells and septic systems must be approved by the Lee County Environmental Health Dept. and/or the appropriate State agency, whichever is applicable.

TRANSPORTATION

The site has frontage on Hawkins Avenue (US-1 BUS), Cape Jasmine Drive (NS-99625), and US Hwy 421 Bypass (US-421). Hawkins Avenue and US Hwy 421 are NCDOT owned and maintained; Hawkins Ave has a 100ft right-of-way and US Hwy 421 has a 300ft right-of-way. This information is per our GIS mapping system and NCDOT must approve any proposed driveways via the site plan review/approval process to verify compliance with all applicable regulations, including – but not limited to - traffic studies and roadway improvements/turn lanes. It should be noted that the site does not have access to a public roadway at this time or possibly ever.

2011 Lee County Comprehensive Transportation Plan: The 2011 Lee County Comprehensive Transportation Plan has designated Hawkins Avenue as a boulevard in need of improvement. US Hwy 421 Bypass was designated as a recommended freeway in the Plan but was completed in 2013.

NCDOT Average Annual Daily Traffic Count (AADT): There is a 2020 NCDOT AADT count of 7,000 vehicles per day on Hawkins Ave in the general area of the subject property, and an NCDOT AADT count of 25,500 vehicles per day on US 421 Bypass in the general area of the property.

DEVELOPMENT STANDARDS

If approved, this information is legally binding on the land; therefore, the site has to be developed as per the approved plans and conditions even if a property transfer were to take place. Any items not specifically addressed in the rezoning process must comply with the UDO standards.

PUBLIC INFORMATION MEETING

Provided below is information regarding public information meetings for your reference:

A Public Information Meeting was held on Thursday, September 15th with staff, a project representative, and eight (8) citizens in attendance. The main topics of conversation/concerns discussed were as follows:

- Concerns regarding potential connections and access to Cape Jasmine Drive by future residents of the proposed development.
- Insufficient buffering between the proposed development and the existing Hawkins Run subdivision.
- Concerns regarding the design of the site, potential elevations for buildings on the site, and the “character” of future residents.

- The applicant, Mark Lyczkowski, proposed three new conditions to address the concerns of adjacent owners; however, staff is not supportive of these conditions as written regarding the deletion of pedestrian connections and increased buffering.

STAFF RECOMMENDATION

The rezoning request generally complies with the *Plan SanLee* long-range plan designation of Neighborhood Center which lists multifamily dwellings as a secondary future land use. The rezoning request adheres to the desired multifamily density of 10 to 16 units per acre; however, due to the acreage of the site, the planning staff does recommend that a portion of the project be dedicated to some commercial or office use, close to Hawkins Avenue. These lower intensity commercial areas are beneficial in serving the immediately surrounding neighborhood with everyday retail essentials and personal services, while also providing a focal point for the neighborhoods that they serve. The boards will also need to take into consideration the adjoining residential subdivision and the possible impact that this conditional zoning may have on the area residents. Additionally, the boards will have to determine whether they need more details to determine the appropriateness of the site in terms of buffering, landscaping, and sidewalks/connectivity.

Additional information presented at the public hearing should also be considered in the recommendation and the final decision regarding the requested zoning map amendment.

PLANNING BOARD RECOMMENDATION

Per state law, when conducting a review of a proposed zoning text or map amendment, the planning board shall advise and comment on whether the proposed action is consistent with any comprehensive plan that has been adopted and any other officially adopted plan that is applicable. The planning board shall provide a written recommendation to the governing board that addresses plan consistency and other matters as deemed appropriate by the planning board, but a comment by the planning board that a proposed amendment is inconsistent with the comprehensive plan shall not preclude consideration or approval of the proposed amendment by the governing board. If no written report is received from the planning board within 30 days of referral of the amendment to that board, the governing board may act on the amendment without the planning board report. The governing board is not bound by the recommendations, if any, of the planning board

Sample Motions

The Planning Board shall provide a written recommendation to the City Council that addresses plan consistency and other matters as deemed appropriate by the Planning Board. These sample motions are provided by staff based on information in the *Plan SanLee* land use plan. The Planning Board members are free to create a unique motion based on different articulated findings, information that was provided during the public hearing, or other matters deemed important by the Board.

VOTE #1: APPROVE A STATEMENT ON CONSISTENCY WITH THE PLAN SANLEE AS IT RELATES TO THIS ZONING MAP AMENDMENT:

Motion Option 1: *“I make a motion that the proposed zoning map amendment IS consistent with the Plan SanLee long range plan designation of Neighborhood Center because it allows multifamily dwellings with 10 to 16 units per acre as a future land use.”*

Motion Option 2: *“I make a motion that the proposed zoning map amendment IS NOT consistent with the Plan SanLee long range plan designation of Neighborhood Center because it lacks the employment, civic, and commercial uses called for within this future land use area.”*

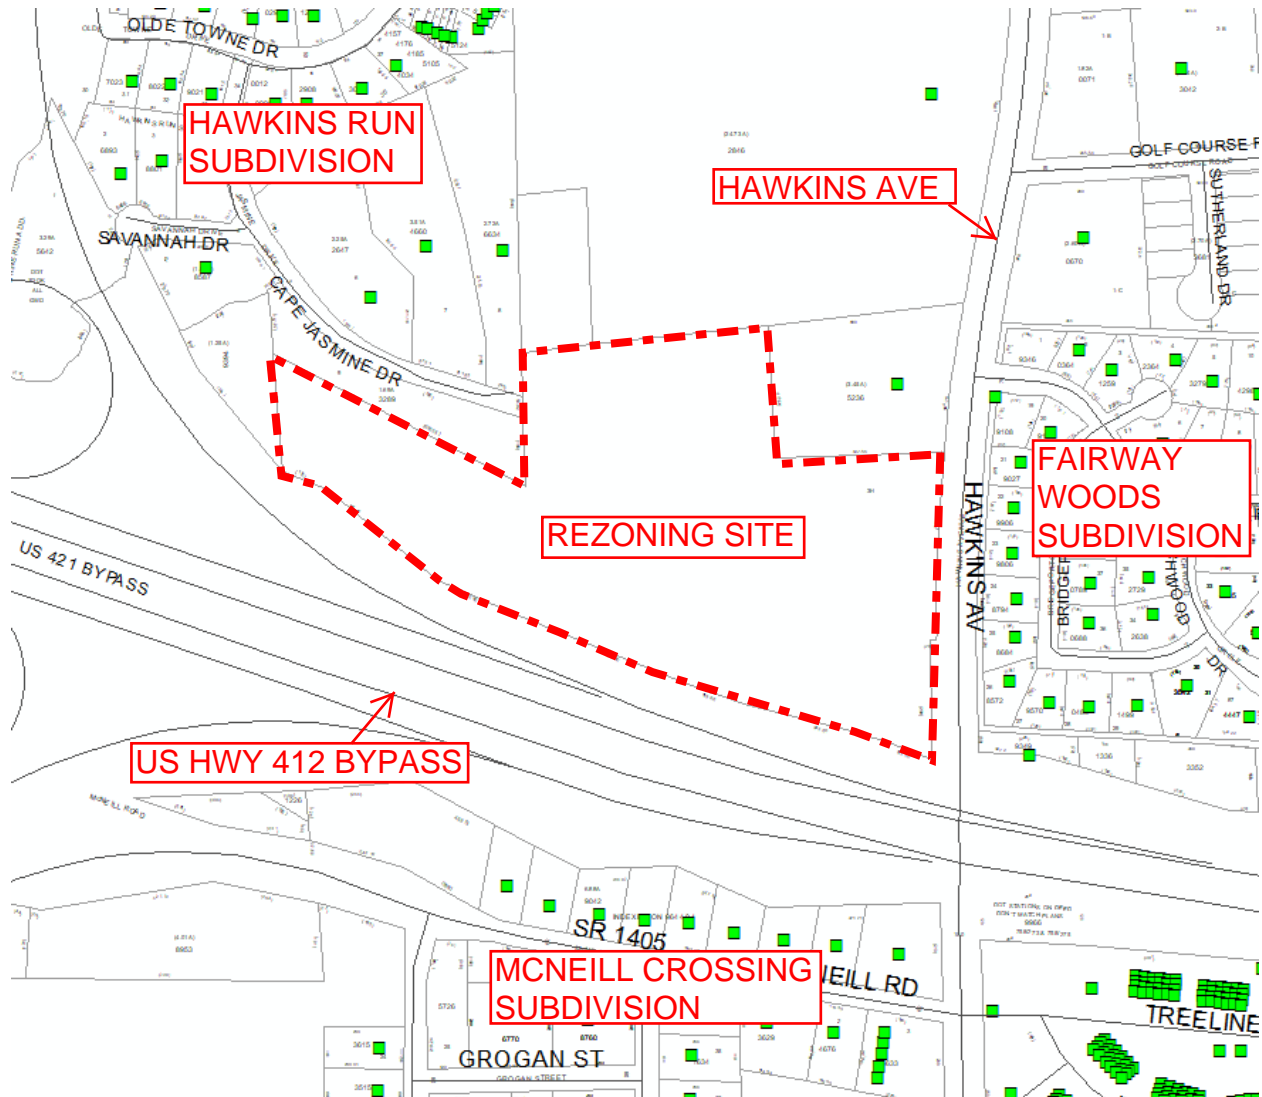

Motion Option 3 - Unique motion: The Planning Board members are free to create a unique motion based on different articulated findings, information that was provided during the public hearing, or other matters deemed important by the Board.

VOTE #2: TO APPROVE OR DENY THE ZONING MAP AMENDMENT:

Motion Option 1: *“I make a motion that Planning Board recommend the City Council **APPROVE** the proposed zoning map amendment because the site is appropriate for the desired land uses and densities.”*

Motion Option 2: *“I make a motion that Planning Board recommend the City Council **DENY** the proposed zoning map amendment because the site is not appropriate for the desired land uses and densities.”*

Motion Option 3 - Unique motion: The Planning Board members are free to create a unique motion based on different articulated findings, information that was provided during the public hearing, or other matters deemed important by the Board.

CITY OF SANFORD
CITY COUNCIL AND PLANNING BOARD
PUBLIC HEARING INFORMATION
October 11th, 2022

REQUEST

Brandon Harrington of Harrington Properties of NC is requesting to rezone two adjoining tracts of land comprising 2.93 +/- acres at Goldsboro Ave, Barnes St, and Cooper St from Residential Mixed (R-12) to the Goldsboro Avenue Conditional Zoning District to allow the development of 25 townhomes as illustrated on the “Harrington Residential Development Plan” submitted as part of the application. This is a site plan/subdivision plan specific conditional rezoning request; therefore, the conceptual development plans and proposed conditions are required as part of the rezoning request.

Public notification consisted of publishing a legal notice in the local newspaper, notification by mail to adjacent property owners, and public hearing signs placed on the property as per the requirements of the North Carolina General Statutes.

GENERAL INFORMATION

Applicant: Brandon Harrington (Harrington Properties of NC)
Property Owners: William Brooks Pomeranz, Blodgett Properties LLC
Request: Rezone from Residential Mixed (R-12) to Goldsboro Avenue CZ District
Location: Frontages on Goldsboro Ave, Barnes St & Cooper St
Acreage: 2.93
Tax Parcels: 9652-28-9577-00, 9652-38-0432-00
Tax Map: 9652.06
Township: East Sanford
Council Ward: Ward 3
Fire District: Central Fire Station
Schools: Deep River Elementary | East Lee Middle School | Lee Senior High School

SITE DESCRIPTION

The site has frontage on Goldsboro Avenue, Barnes Street, and Cooper Street off of Bragg Street.

ZONING DISTRICT INFORMATION

Existing Zoning: The Residential Mixed (R-12) district is established to provide areas for a mix of residential dwelling types with a maximum of three and one-half (3.5) dwelling units per acre, in areas where large-lot development is discouraged and adequate public facilities and services are available.

Minimum lot size: 12,000sf or 0.28 of an acre
Minimum lot width: 75ft
Minimum lot depth: 100ft
Minimum building setback, front: 30ft, measured from the right-of-way of the public street
Minimum building setback, rear: 20ft, measured from the rear property line
Minimum building setback, side(s): 12ft, measures from the side property lines

Maximum building height: 40ft
Maximum impervious surface: N/A, not taking into consideration watershed regulations

Examples of uses permitted by right within the R-12 zoning district include single-family homes, duplexes, and churches (less than 350 seats). Uses permitted subject to supplemental development regulations unique to the use include townhomes, multi-family dwellings, family care homes, and home child care centers. Uses permitted upon issuance of a Special Use Permit by the Board of Adjustment include group care facilities, golf courses, churches (more than 350 seats), and new schools. There is a list of permitted uses for this zoning district included within the agenda for your reference.

Proposed Zoning: The Goldsboro Avenue Conditional Zoning District is a Type 1 Conditional Zoning District that is created as a stand-alone district with its own unique conditions. Under a Conditional Zoning District Type 1, an owner would have the freedom to develop his/her own unique list of permitted uses and design standards. It is also understood that such a district would need to be designed so as to maintain the integrity and characteristics of the surrounding community as well as conform to the spirit and intent of the Zoning Ordinance. A Conditional Zoning District Type 1 would be most suitable in situations where none of the current conventional Zoning Districts accommodate the desired use(s), such as a large mixed-use planned development in which the owner/developer has a clear vision as to how the property is to be developed.

Only the property owner(s) of a proposed Conditional Zoning District Type 1 shall be eligible to apply for rezoning to a Conditional Zoning District, and all owners of property proposed for inclusion in the conditional zoning must petition for the rezoning. The owner shall specify the use(s) of the property and shall propose additional conditions to ensure compatibility between the development and the surrounding neighborhood. The conditions shall include all of the following (as applicable):

- The location on the property of the proposed use(s);
- The number of dwelling units;
- The location/extent of supporting facilities such as parking lots, driveways, and access streets;
- The location and extent of buffer areas and other special purpose areas;
- The timing of development;
- The location and extent of rights-of-way and other areas to be dedicated for public purposes;
- And any other such conditions the applicant may wish to propose.

The application shall include a site plan/subdivision plan and detailed narrative text that specifies the conditions that will govern the development and use of the property. If approved, this information is legally binding on the land; therefore, the site has to be developed as per the approved plans and conditions even if a property transfer were to take place. Any items not specifically addressed in the rezoning process must comply with the UDO standards.

As reminder, the conditional zoning process is a negotiated zoning process and, as such, the City Council and/or Planning Board may request that certain conditions be considered or altered. However, the petitioner must accept such conditions before inclusion in the conditional zoning district.

The conceptual information submitted for this rezoning request was reviewed by our Sanford/Lee County Technical Review Committee (TRC), which is comprised of staff representatives from various departments and governmental agencies. The TRC was amenable with the rezoning request associated

with this project moving forward for review/approval by the Planning Board and the City Council. However, all outstanding TRC requirements and revisions must be addressed prior to the development of the site in the manner proposed. This includes an actual technical review of the development plans for this project to ensure compliance with all required technical specifications and codes of all governmental agencies prior to staff level approvals being issued for the development of the site. For example, NCDOT must approve all proposed connections to NCDOT maintained public roadways and the City Engineering Dept. must approve all proposed public water and sewer extensions/connections.

The following information is applicable for the Goldsboro Avenue Conditional Zoning District:

- Townhomes are proposed to be rear-loaded via construction of a new private alleyway.
- Sidewalk will be installed along both sides of alleyway and along the frontage of all lots.
- Buffer and street yards are proposed (see plan).
- Each lot will be planted with at least one (1) tree.
- Public streets are NOT proposed to be retrofit for curb and gutter.

A preliminary subdivision plat that corresponds with the overall design, uses, conditions, design standards, and maximum densities denoted within this rezoning application and on the concept plans shall be required to be approved by the City Council prior to the issuance of final plat recordation and development permits for the parcels included within the Burns Towns Conditional Zoning District. Please reference the concept plans submitted as part of the rezoning application.

Adjacent Land Use

North: Single-family homes in the Palmer Subdivision
South: Single-family homes in the Palmer Subdivision
East: Single-family homes in the Cobb Estate Subdivision
West: Single-family homes in the Palmer Subdivision

PLAN SANLEE

The long-range land use plan identifies the property as Urban Neighborhood, which are higher density residential neighborhoods in the city core, walkable to adjacent urban commercial districts, and grid street networks are the typical development form. The local example is the North 4th, 5th, and 6th Streets in Sanford. Information from the land use plan is provided as attachments to this report for your reference.

LOCAL OVERLAY DISTRICTS

Per GIS, the subject property is not located within a local historic district, a Watershed Conservation Overlay District, or an established Flood Hazard Area (floodplain). The townhome development is subject to the multi-family design standards; however, a conditional rezoning request may alter these standards.

The following is a general note included with all rezoning requests: Sanford, Lee County, and Broadway do not have a local grading permit or stormwater ordinance and rely on the NC Department of Environmental Quality to regulate land disturbing activities. For questions or concerns regarding land disturbing activities, contact the NC Division of Energy, Mineral, and Land Resources Sediment Program via mail 1612 Mail Service Center, Raleigh, NC 27699-1612, via phone at 877-623-6748 or visit the NCDEQ website at <http://deq.nc.gov>. The physical address of the office is 217 W. Jones Street, Raleigh, NC 27603.

UTILITIES

The site appears to have access to public water and public sanitary sewer via main lines along Goldsboro Ave and Barnes St. This information is per our GIS mapping system and, if the rezoning is approved, all new development and/or water and sewer connections must be approved by the City of Sanford Public Works Dept./Engineering Dept. to verify compliance with all policies and regulations, including but not limited to offsite improvements or upgrades.

TRANSPORTATION

There is frontage on Goldsboro Ave (NS-98860), Barnes St (NS-99672), and Cooper St (NS-99956) which are non-system roads maintained by the City. The streets abutting the site are not identified in the 2011 Lee County Comprehensive Transportation Plan. This information is per our GIS mapping system and NCDOT must approve any proposed driveways via the site plan review/approval process to verify compliance with all applicable regulations, including—but not limited to—traffic studies and roadway improvements/turn lanes.

NCDOT Average Annual Daily Traffic Count (AADT): There is a 2020 NCDOT AADT of 3,800 vehicles on Bragg Street per day in the area which connects to Cooper St and intersects Goldsboro Ave.

DEVELOPMENT STANDARDS

If rezoned, the land uses, densities, and design associated with the Goldsboro Avenue Conditional Zoning District would apply. Any design standards not addressed within the conditional zoning district would be required to meet the current general development standards of the UDO.

Regarding future development of the subject property, a preliminary subdivision plat that corresponds with the overall design, uses, conditions, design standards, and maximum densities denoted within this application and on the concept plans (civil and architectural) will be required to be approved by the Sanford City Council in the same procedural manner as all preliminary major subdivision plats prior to the signing/recordation of the final plat and issuance of development permits for the parcels included within the Burns Towns Conditional Zoning subject property.

PUBLIC INFORMATION MEETING

Provided below is information regarding public information meetings for your reference:

A public information meeting was held on A Public Information Meeting was held on Wednesday, September 14th with staff and the project engineer present; however, no citizens were in attendance.

STAFF RECOMMENDATION

The rezoning request complies with the *Plan SanLee* long-range plan designation of Urban Neighborhood, which lists attached single-family dwellings as a preferred land use with a density of less

than 10 units per acre. Furthermore, the proposed conditions of the rezoning adhere to the preferred character of the Urban Neighborhood land use area by maintaining the existing urban grid street network, incorporating street/buffer yards, and installing sidewalks along the public right-of-way and the proposed alleyway. Therefore, staff is generally supportive of the rezoning; however, the boards will need to take into consideration the adjoining residential subdivision and the possible impact that the development associated with this rezoning may have on area residents when determining if they are comfortable with this increase in land use intensity.

Additional information presented at the public hearing should also be considered in the recommendation and the final decision regarding the requested zoning map amendment.

PLANNING BOARD RECOMMENDATION

Per state law, when conducting a review of a proposed zoning text or map amendment, the planning board shall advise and comment on whether the proposed action is consistent with any comprehensive plan that has been adopted and any other officially adopted plan that is applicable. The planning board shall provide a written recommendation to the governing board that addresses plan consistency and other matters as deemed appropriate by the planning board, but a comment by the planning board that a proposed amendment is inconsistent with the comprehensive plan shall not preclude consideration or approval of the proposed amendment by the governing board. If no written report is received from the planning board within 30 days of referral of the amendment to that board, the governing board may act on the amendment without the planning board report. The governing board is not bound by the recommendations, if any, of the planning board

Sample Motions

The Planning Board shall provide a written recommendation to the City Council that addresses plan consistency and other matters as deemed appropriate by the Planning Board. These sample motions are provided by staff based on information in the *Plan SanLee* land use plan. The Planning Board members are free to create a unique motion based on different articulated findings, information that was provided during the public hearing, or other matters deemed important by the Board.

VOTE #1: APPROVE A STATEMENT ON CONSISTENCY WITH THE PLAN SANLEE AS IT RELATES TO THIS ZONING MAP AMENDMENT:

Motion Option 1: *“I make a motion that the proposed zoning map amendment **IS** consistent with the Plan SanLee long range plan designation of Urban Neighborhood because it does allow attached single-family dwellings as a proposed land use.”*

Motion Option 2: *“I make a motion that the proposed zoning map amendment **IS NOT** consistent with the Plan SanLee long range plan designation of Urban Neighborhood because the site is better situated for one of the other proposed land uses in the Urban Neighborhood future land use area.*

Motion Option 3 - Unique motion: The Planning Board members are free to create a unique motion based on different articulated findings, information that was provided during the public hearing, or other matters deemed important by the Board.

VOTE #2: TO APPROVE OR DENY THE ZONING MAP AMENDMENT:

Motion Option 1: *“I make a motion that Planning Board recommend the City Council **APPROVE** the proposed zoning map amendment because it is reasonable and in the public interest since the adopted long-range plan is supportive of the land uses and the design submitted as part of the conditional rezoning request utilizes public water and sewer.*

Motion Option 2: *“I make a motion that the Planning Board recommend the City Council **DENY** the rezoning request because the proposed design submitted as part of the conditional rezoning request is not appropriate for this location.”*

Motion Option 3 - Unique motion: The Planning Board members are free to create a unique motion based on different articulated findings, information that was provided during the public hearing, or other matters deemed important by the Board.

REQUEST

LAMCO Custom Builders, LLC, is seeking approval of a preliminary plat for the third phase of Brantley Place, a proposed major residential development consisting of nineteen lots intended for detached single-family homes. This project originally began as Carthage Square subdivision, which was approved and platted in 2020 by Mr. Mark Lyczkowski. Since then, LAMCO Customer Builders has purchased the lots and agreed to coordinate with Groce Companies' in developing this site as an additional phase of the Brantley Place subdivision, the preliminary plat for which was approved in 2021 and is currently under construction. This proposed subdivision will allow for nine additional lots, but also the extension of public sewer along Tyndall Drive, as well as the extension of public sidewalk and curb/gutter along one side of the street. **The site was recently rezoned from R-12 Residential Mixed to R-10 Residential Mixed** in July of this year. All lots proposed

are intended to be served by public water, public sewer, and public streets, all to be maintained by the City of Sanford.

ZONING DISTRICT INFORMATION

Current Zoning: R-10 Residential Mixed

The proposed subdivision design complies with the standards of the R-10 Zoning District.

For your reference, the following design standards are applicable to the Marelli Conditional Zoning District:

- Minimum Building Setbacks for Principal Structures:
 - Front = 25ft
 - Rear = 20ft
 - Sides = 10ft
- Minimum Lot Size:
 - 10,000sf
- Minimum Lot Width:
 - 75ft

Adjoining Zoning

North: Residential-Mixed (R-12) – Sanford ETJ
South: Residential-Mixed (R10) – City of Sanford
East: Residential-Mixed (R-12), opposite Carthage Street – Sanford ETJ
West: Residential-Mixed (R-12) – Sanford ETJ

LOCAL OVERLAY DISTRICTS & CORRIDOR STANDARDS

Per GIS, the subject property is not located within a local historic district or established Flood Hazard Area (floodplain), nor is the subject property located within a watershed conservation overlay district.

The following is a general note included with all preliminary subdivision: Sanford, Lee County, and Broadway do not have local grading permits and rely on the NC Department of Environmental Quality to regulate land disturbing activities. For questions or concerns regarding land disturbing activities, contact the NC Division of Energy, Mineral, and Land Resources Sediment Program via mail 1612 Mail Service Center, Raleigh, NC 27699-1612, via phone at 877-623-6748 or visit the NCDEQ website at <http://deq.nc.gov>. The physical address of the office is 217 W. Jones Street, Raleigh, NC 27603.

UTILITIES

All lots are proposed to be served by City maintained public water via an existing 8-inch water main line along Tyndall Drive. An 8-inch sewer main is proposed to be extended along Tyndall Drive from the adjoining property to the south, currently under development as Brantley Place, Phases I and II. This information is per our GIS mapping system and, if the preliminary plat is approved, all new development must be approved by the City of Sanford Public Works Dept./Engineering Dept. to verify compliance with all policies and regulations, including - but not limited to - pipe sizing, off-site improvements and annexation.

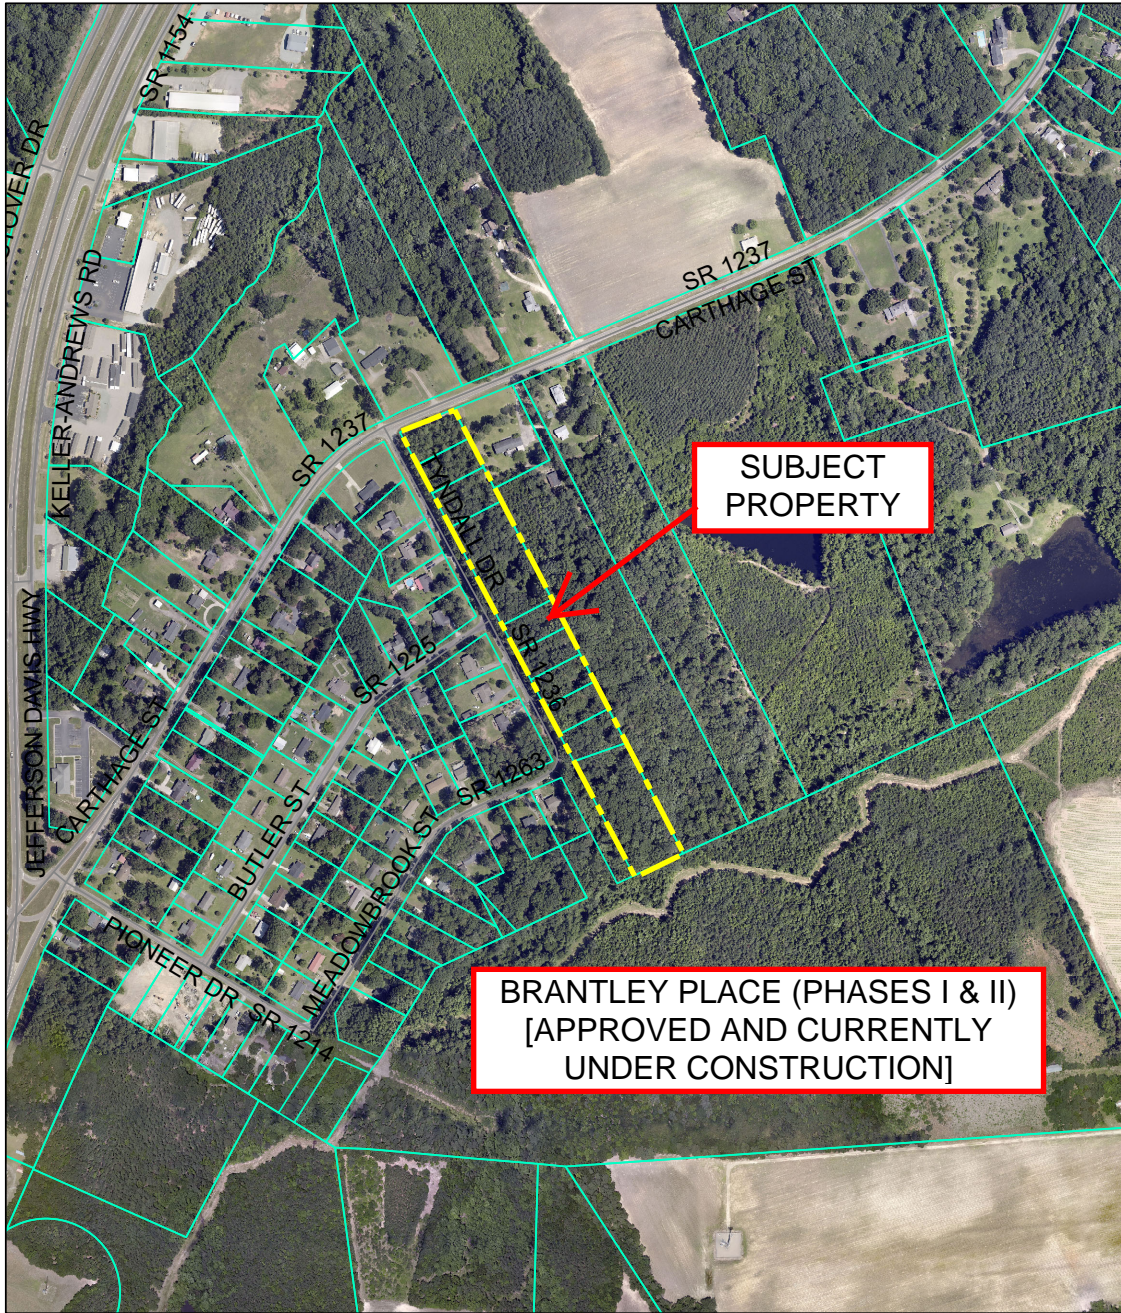

TRANSPORTATION

The site has 1,631ft ± of road frontage on Tyndall Drive (SR1236), a NCDOT maintained paved public highway with a 60ft right-of-way. There is a 2011 average daily traffic count of NCDOT traffic count of 180 on Tyndall Drive in front of a house addressed as 5211 Tyndall Drive. The developer is working with the Sanford Public Works Department to improve Tyndall Drive with curb and gutter and pedestrian sidewalks along one side in order to have the street accepted for public maintenance by the City of Sanford. This information is per our GIS mapping system and, if the preliminary plat is approved, a Driveway Permit must be issued by NCDOT for all driveway connections to the NCDOT maintained roadways as part of the site plan review/approval

process to verify compliance with all applicable regulations, including – but not limited to - traffic studies and roadway improvements/turn lanes.

OTHER CONDITIONS / REQUIREMENTS / NOTES:

MEMORANDUM

TO: City of Sanford City Council
City of Sanford Planning Board
Hal Hegwer, City Manager

FROM: Marshall Downey, Planning Director

DATE: September 20, 2022

REF: Consideration of a text amendment to Table 4.6-1 Permitted Use Matrix to revise the land use categories “Religious Complex (less than 350 seats), new site” and “Religious Complex (more than 350 seats), new site” to remove the prohibition preventing this land use from being located within the central business district (CBD) zoning classification.

This item was tabled by the City Council on July 19, 2022 after the joint public hearing was held. On September 9, 2022, the City Council took this item from the table and instructed staff to proceed with placing it on the next available Planning Board agenda for a recommendation.

Recently, staff was directed by City Council to prepare an amendment to the Unified Development Ordinance (UDO) to allow religious institutions (churches) within the central business district (CBD) zoning classification.

Currently the UDO does not allow for religious complexes (churches) to be located within the central business district zoning classification. In April of 1999, the Sanford City Council took up this similar issue and adopted changes to the zoning ordinance that would promote relocation of the churches/religious uses into other areas of the city (the 1999 zoning changes reduced the restrictions and regulations associated with all other zoning districts). While adopting these new changes in ‘99, the Council also recognized that all existing churches would be grandfathered. In the months following, staff survey both the CBDs for Sanford and Jonesboro and created a master list of the churches then in operation. Over the years of this prohibition being in effect, Zoning staff has consistently tried to monitor and enforce this regulation. However, staff recognizes that we have a number of current sites within both the central business district of downtown Sanford and downtown Jonesboro that appear to be operating as unauthorized churches/religious operations.

Complicating this issue is the concern regarding Religious Land Use and Institutionalized Persons Act of 2000, commonly known as “RLUIPA”.

To learn more about RLUIPA, the following are excerpts taken from David Owens, Coates Cannons IOG Blog, August 2010:

Religious uses have land use impacts, just as their secular counterparts. Large places of worship create the same traffic, noise, and congestion issues as do other places of assembly

of comparable size. The fact that a community center, event space, school, daycare, homeless shelter, or food pantry is sponsored by a religious rather than a secular organization usually makes no difference in its land use impacts. So, a basic proposition that religious land uses should be subject to the same land use regulations as their comparable secular counterparts makes sense and is noncontroversial, right?

Not entirely. There are two difficulties with applying this basic proposition without qualification. First, persons have a constitutional right to the free exercise of their religious beliefs. Second, fear and distrust, particularly of minority religions, has led to discrimination that on occasion is reflected in governmental land use regulations.

In addition to basic constitutional protection, Congress enacted the Religious Land Use and Institutionalized Persons Act of 2000 (RLUIPA) to address this issue. It establishes a general rule that a zoning or landmarking regulation cannot impose a substantial burden on religious exercise (including religious assembly) unless it is in furtherance of a compelling governmental interest and is the least restrictive means of furthering that interest.

The courts have found that most general land use regulations do not “substantially burden” religious exercise. The burden imposed must be more than an “inconvenience” or something that increases the costs for the religious user. The burden must be so significant that it renders the religious exercise effectively impractical. Courts find that it is not a substantial burden to require compliance with typical zoning regulations. These include requirements to locate large places of assembly outside of residential areas, prohibitions of noncommercial or institutional uses in industrial or redevelopment areas, limits on the size and heights of buildings and signs, provision of adequate parking and buffers, and maintenance of harmony with existing nearby uses and congruence within historic districts. The cost and time taken to apply for and go through the approval process (such as a rezoning or special use permit review) have likewise been held not to be a substantial burden.

Conversely, however, where a city or county is shown to be using its land use regulations to deliberately frustrate a religious land use without appropriate justification, the courts will step in. Multiple denials have prompted judicial intervention, especially when modifications in the applications have been made to address concerns raised in an initial review or when each application produces new and inconsistent justifications for the denials. Denials that are unsupported by showing any legitimate land use impacts, especially where the decision-maker seems to be ignoring relevant factual information, have also been invalidated. It is important to remember that if actual religious discrimination or unequal treatment of religions is established, the action is illegal even if there is not a substantial burden.

*When [considering zoning district use] regulations, be sure that they leave reasonable alternatives available for religious expression. If you want to limit location of all religious uses in a redevelopment area or an industrial district, be sure there are ample places elsewhere within the jurisdiction that these uses can be undertaken. This was a key factor in a recent decision upholding Coat’s prohibition of places of worship in a six-block commercial area, but allowing them elsewhere. *Dixon v. Town of Coats*, 2010 WL 2347506 (E.D. N.C. June 9, 2010). Documenting that the availability of alternative sites was thoughtfully considered prior to making a decision can defuse a substantial burden issue.*

Staff also looked into some of the case law as examples of how this law has been applied to other towns and cities.

The first example is from a 2010 case, *Dixon v. Town of Coats*, 2010 WL 2347506 (E.D.N.C. June 9, 2010), wherein the Town of Coats withstood a RLUIPA challenge. In this case, the Plaintiff owned a small building in downtown Coats that had previously been used for various retail uses, a residence, and a church. The town rezoned the entire six-block downtown areas to a “Mixed Use Village District.” Churches were not a permitted use in the district. At the time of the rezoning plaintiff’s structure had been vacant several months. Some six months later the plaintiff leased the building to a person who proposed using it for a church. The town informed the tenant that the use was not permitted and that prior church use did not have nonconforming status as that use had been discontinued more than ninety days. Nonetheless, the town allowed the tenant to open a church on site, but advised them this was a “one time” approval and once the church closed, another religious use would not be approved. The church operated briefly, closed, and the plaintiff then leased the property to another church. The town staff denied zoning approval and the denial was upheld by the Board of Adjustment.

The court first held the plaintiff had standing to bring a claim under the Religious Land Use and Institutionalized Persons Act even though he had not made nor proposed to make any personal religious use of the site. The Plaintiff’s potential financial loss as a lessor prohibited from leasing to a religious user of his property was sufficient to establish standing. The court dismissed his “equal terms” claim, however, as the plaintiff was not a religious assembly or institution. The court held the exclusion of places of worship from a relatively small area was not a “substantial burden” as it did not render religious exercise effectively impractical within the town as a whole. The town withstood the legal challenge.

The next two examples illustrate communities that lost a RLUIPA challenge.

Lighthouse Institute for Evangelism v. City of Long Branch, 510 F3d 253 (3rd Cir 2007), cert den 128 S Ct 2503, 171 L Ed 2d 787 (2008), the zoning ordinance for a downtown commercial district permitted a variety of uses, including an “assembly hall,” but did not permit churches. The Third Circuit construed the equal terms provision at 42 USC 2000cc-(b)(1) to require that a person asserting a claim under the equal terms provisions must show (1) it is a religious assembly or institution, (2) subject to a land use regulation, which regulation (3) treats the religious assembly on less than equal terms with (4) nonreligious assembly or institution (5) that causes no lesser harm to the interests the regulation seeks to advance. 510 F3d at 270. The Court found that “it is not apparent from the allowed uses why a church would cause greater harm to regulatory objectives than an ‘assembly hall’ that could be used for unspecified meetings[,]” and concluded that the zoning code violated the equal terms provision. *Id.* at 272. The town failed the RUILPA challenge.

Midrash Sephardi, Inc. v. Town of Surfside, 366 F3d 1214 11 (11th Cir 2004), the zoning scheme prohibited churches and synagogues within a business district, but permitted “private clubs,” among other similar secular uses. The Eleventh Circuit found that private clubs and other non-religious uses allowed in the zone were “assemblies” for purposes of RLUIPA, and that the prohibition on churches and synagogues violated the equal terms provision. Again, the town failed the RUILPA challenge.

Based on case law, it appears religious uses must be treated in the same manner as all similar land uses (places of assembly such as private clubs, bars, wedding venues, social/fraternal organizations, community centers, theaters, meeting halls, etc.) in a specific zoning district in order to meet the RUILPA standard. Many of these other assembly uses are allowed by right in the CBD. As such, staff has brought forward the attached text amendment for consideration. If approved, this would allow religious complexes (churches) in the central business district (CBD) in both downtown Sanford and downtown Jonesboro.

The consideration of this amendment was presented and discussed by the Joint Planning Commission (JPC) in on June 28th. The JPC recommended that the amendment moved forward to public hearings on a 4-2 vote. The draft amendment is attached for your consideration.

**AN ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE
